FOREWORD

Indian astrology is called the third eye of vedas. It has perception of past, present and future. Therefore It is said :

आँख तीसरी वेदकी, देखेतीनों काल ।

ज्योतिष उत्तर दे सभी, कोई करो सवाल ।।

It is not only divine knowledge but a proved science. Many pseudo intellectuals who hoax this knowledge are not aware of its basic foundation. What is astrology ? The music generated through the motion of stars, and planets. It is the permutation and combination of light emanating from various planets.

It is the music of cosmos :-

ज्योतिष लय ब्रह्माण्ड की, बहती सरित समान् ।

उद्गम पर अध्याह्नै, संगमपर विज्ञान ।।

Our ancient seers studied this divine knowledge from various angles and formulated their own principles. The work of **Bhragu, Parasara, Gemini, Varhamihir** etc. are still the basic foundations of all astrological calculations.

The name of the Late Professor Krishnamurtis is well known in modern astrology. He did sincere and serious research in the field of astrology and given it a new dimension. Nadi shastra of traditional astrology had divided time into seven hundred twenty parts. Our ancient seers had divided 27 stars or constellations into 108 parts of time. Nadi shastra through the division of time into seven hundred

twenty parts provided **oportunity** for deep and minute study. But seven hundrd twenty nadis are now not available. Late Krishnamurti divided 108 parts of stars into 249 parts. This division proved to be a milestone in astrology.

This novel approach of prognostication of future as invented by K.P. was not given its due **honour**. But many astrologers later followed it. Dr. Arastu Prabhaker one of the prominent astrologer of India made deep research over K.P. and has made astonished predictions. Dr Arastu Prabhaker has added new dimension to the work of K.P. and has refined it through research. I have personally got **benefited** from the predictions of Dr. Arastu Prabhaker. The present book is the English translation of Prasna Jyotish whcih received warm response from readers. I am grateful to **Shri Dayashanker who himself is a scholar of astrology and Smt. Rajeshwari Shanker The Editor and proprietor of The Times of Astrology and Nishkaam Peeth Prakashan** for bringing out the present book. I offer my blessings to Dr. Arastu Prabhaker and **also** expect same warm response to this book like previous one by all sections of astrologers and lovers of astrology.

Blessings and congratulations to Dr. Arastu Prabhaker.

PREFACE

After overwhelming response of Times Prasna Jyotish (Hindi) the need of English version of this book was greatly felt by astrologers across the country. The present book is the translation of Hindi version with new added live examples. The defects which persisted in Hindi version have been rectified to make it more and more useful to esteemed readers. K.P. astrology is getting momentum day by day due to its **Practical utility** and for making **scintillating predictions**. The importance of traditional astrology can neither be mitigated nor ignored because all systems of prognostication of future have got generated from it. K.P. too is not exception. The book is unique blending of K.P. as well as traditional astrology. The proved principles of traditional astrology have been beautifully incorporated with K.P. to make it more meaningful and trustworthy. **After making tedious research over a decade of time various confusions which persisted even in the books of K.P. have been sorted out with logical explanations.** In present time the utility of horary astrology as compare to natal astrology is much more and unparallel due to its practical utility. Horary astrology has given rise to mobile astrology or telephone astrology. The querent need not to present himself or herself **before** astrologer but simply can ask any question any time from any part of world on mobile or telephone. Within 10 minutes he is given clear cut answer either in yes or no. Thus horary astrology has not only saved the time of people but also saved their energy and money. There is a some sort of confusion over selection of ruling planets. **This confusion is not only present in**

software of astrology but also persisted in the book of K.P. After solving more than one thousand questions of horary astrology I have reached the conclusion that selection of ruling planets is almost incorrect and erroneous. Proper explanation have been given in the book over selection of ruling planets. The another important feature of this book is that practical case study examples have been classified into house wise. Now it is very simple and convenient for the readers to select to which query which house or cusp is to be considered. Few questions for which no particular house is judged have also been included in this book so that reader may become familiar with such type of queries. I would like to bring to the knowledge of reader that any book of the world is only a source of information. The intellect and wisdom convert it into knowledge. Thus the ultimate source of knowledge is intellect and wisdom of the readers. **I would also like to make it clear that the contents of whole book are the out come of research and deep concentration only on horary astrology.** Each sentence and all the examples included in the book have been found to be practically correct without exceptions.

The theory part of this book is absolutely based on proved cases therefore each word each sentence is very important for the readers. Specific comments have also been given in few cases in which a confusion may arise in the mind of readers.

I hope readers will give same warm response to the book what they gave to Hindi version. I also request to the readers of this book to bring to my knowledge any fallacy or missing part which they think ought to be included in the book.

I am thankful to my all clients whose continuous interaction helped me to deal with questions of different nature and different varieties.

I owe my sincere thanks to the editor and publisher of this

book smt Rajeshwari Shanker for encouraging me to write the book in English and also taking all pains from cover designing to printing and ultimately bringing out this book.

I am also thankful to my all students who provided me opportunity to teach them and also for different questions they posed during classroom lectures due to which I could update my knowledge as well could go deep into horary astrology. I also pay my special thanks to my student **Shri Anuj Jain Delhi** based astrologer who is always in touch with me with different type of questions. He devoted a lot of time and energy to proof corrections and advised me to concentrate on various aspects of this books. **This book could never be completed without his sincere and selfless service.** May god bless him and all my students.

In the last but not least I pay my sincere thanks, respect and love to my wife **Dr. Vatsala Prabhaker** who inspite of her busiest schedule burnt mid night oil with me in the completion of this book. As I did not have time but her timely support helped me to complete this book.

I also bow my head before almighty God Lord Ganesha for his grace which ignited in me a passion for astrology.

May Lord Ganesh grant peace and happiness to all.

Goodluck

Brief History of Horary Astrology

Horary Astrology - (**Indian**) -: It is very difficult to answer when Horary astrology came into existence. However it could be assumed that with the dawn of human existence the astrology too got evolved with the evolution of mankind. Vedas have mentioned about astrology and the oldest Veda is Rig Veda. Therefore origin of Vedas as well as of astrology could be inferred some three thousands years before Christ.

Horary astrology used to be called Hora Shastra as per ancient classical literatures. It means Horary astrology was studied as separate branch or quite distinct subject from general astrology. The word Horary is derived from the word Hora means Hour. In ancient times astrologers used to make predictions on the basis of words uttered by the querent. In later stage the predictions were made on the basis of sitting gesture of the querent, Nadi breaths, articles in the hand of querent, etc. In the time of Prithuyasas the son of Varahamihira this system of prediction was developed, refined, rectified and advanced in well manner and systematically. This branch of astrology flourished well in Ninth, Tenth and Eleventh A.D.. Many traditional authors have written many books on this subject. Among them few notable worth work is mentioned herewith for the benefit of the readers. Prasnachintamani, **Prasnajnanam**, Prasnamarga, Prasna Bhusana, Prasnatanttra, Satpanchasika. Prasna-Bhairava, **Bhuvan Deepika** Prasna Churnamani etc.

Astrologer used to deliver forecast on the basis of words uttered by the querent or his sitting gesture, direction etc. were the guiding principles for the astrologer, to reach the conclusion regarding the query of the querent. In later stage Astrologers resorted to different method of prediction i.e. querent used to mention one number out of 108. The Ascendant was erected on the basis of number as mentioned by querent and the **results** were read. What is the mystery of taking number up to 108? The answer is that whole Zodiac is divided into 27 constellations or Nakshatras. Each constellation is divided into four padas. Therefore, 27 constellations have $27 \times 4 = 108$ padas. In this way the number up to 108 consists of whole Zodiac. This makes amply clear that constellations were used in making predictions which later on developed and advanced by Late K.S. Krishnamurti.

Horary Astrology (Western) :- Westerners believed that **Seth** was the founder of Astrology and existed in 3769 B.C. It is said about the Scholan that he divided the whole Zodiac into 12 parts. **He** was the first to announce that the sun rotates and his rotation is **responsible** for day and night to occur. He also divided the elliptic and the divided part was called Mazzaroth.

Chaldean in 2600 B.C. studied and advanced this science and **was** able to maintain a relationship between **planets** and their impact on life. According to Dr. Thompson the **Sumerian** studied the Zodiac and the universe. Astrology **flourished** well in Babylon, Egypt and Greek.

"In the field of Horary astrology William Lily is well known name both in India as well as in West. He lived in 1602-81 A.D. Apart this legend, Alan Leo, Edwin Castle, **John Wilson**, Charles **Hathfield** etc worked untiring for the cause of horary astrology. They developed this science up to the perfection. There is some difference of opinions between Indians and westerners, as far as reading of nativity is concerned. Indians take seriously the position of planets in particular house and the aspect among the planets is secondary in importance to them, where as Westerners decide on the basis of Aspects formed among the planets. Indian adopt Niryana basis while westerners advocate Sayana basis.

Important Nomenclatures and Explanations

1. Zodiac -: According to traditional astrology the Zodiac commences from a constant point. This constant point is 180° away from chitra (spica) Nakshatra. While according to western astrology the zodiac commences from Aries sign 0° degree and retreats back by 50.23 seconds per year.

2. Sayana and Niryana system -: According to western astrology the sun is pivot to calculate or delineate the results. Moon is the central point for all calculations in Indian astrology., According to western astrology the Sun moves on Aries sign to between 21 March to 20 April while the Sun moves on Pisces sign between this period as per Hindu Astrology.

Example -: The position of sun as per Niryana system on 21 March 2002 at 5.30 am (I.S.T.) is

$115^\circ - 18' - 46''$

In order to get sayana position of the Sun, add Ayanamsa of this year to Nirayana position of the Sun.

Ayanamsa (K.P. - 2002) - $23^\circ - 46' - 56''$

$115^\circ - 18' - 46''$

$+ 23^\circ 46' 56''$

$29^\circ 64' 102''$

Or OS $0^\circ - 5' - 42''$

Conversion Formula is -

i. Sayana position of the planet - Ayanamsa of that year = Nirryana position

ii. Nirryana position of the planet + Ayanamsa of the year = Sayana position

3. What is Ayanamsa? In Western Astrology or Sayana system for the calculations of constellations & planets an imaginary **constant** point is conceived. This constant point never changes. Therefore the position of constellations & planets also do not change. The distance between this constant point and vernal equinox (The beginning point of Aries sign) is called Ayanamsa.

The tropical & sidereal point coincides in 285 A.D. On 22 March 285 A.D. The tropical and sidereal point were the **same** i.e. $180^{\circ}-00'-03''$.

As per late K.S. Krishnamurti the tropical & sidereal point were same in 291 A.D. Therefore, there is a difference of six minutes between the Ayanamsa of **N.C.** Lahari and that of Krishnamurti. Horoscope prepared **on** the basis of K.P. must strictly follow Ayanamsa as propounded by late Krishnamurti.

4. What is Day -: The sunrise to next sunrise is termed as day in traditional astrology while in civil time the day changes after 12.00 Midnight.

Example-: A baby is born at 3.00 midnight on dated 3 March 2002. The Sun rises at 6.45 **am** on 3 March 2002 and at 6.46 **am** on 4 March 2002. As per traditional astrology the date of birth of this baby is 3 March while as per civil time **the** date of birth of the newly **born** baby is 4 March. In Horary astrology always take civil time because day is one of the important ruling planets.

5. House or Bhava and Cusp -: According to Indian astrology the Zodiac is divided into twelve **parts**. **Each** part is called house or Bhava. The longitude of Zodiac is 360° . Therefore each part

is of thirty degree in longitude. The **word** cusp though signifies a house yet it has different meaning from general sense of a house or **Bhava**. **Cusp** is actually the beginning point of a house. The beginning point of a house is considered to be very influential as well as powerful. This is generally a western concept and quite scientific in nature. In Placidus system of house division each Bhava or House Varies in longitude. A particular Bhava may be of thirty degree or more or less from thirty degree but the total of 12 cusps or houses will always be three hundred sixty degrees in longitude.

6. Transit or Gochara -: The entrance of the planet into the sign is called transit or Gochara. The Transit effect of the planets is studied in respect to the position of moon at the time of **birth**. Now a days many astrologers read transit results in respect to Ascendant.

7. Which house signify Father -: Few Astrologers read results pertaining to father from tenth house. The logic behind is that since fourth house denotes mother therefore seventh to fourth house is tenth house. However many astrologers assign ninth house to father. We take ninth house as the seat of **father**. In Horary questions pertaining to **father** always take ninth house for judgment.

8. Constellation -: There are 27 constellations. Though one more constellation i.e. Abhijeet find place among the constellations but it is not used. Each constellation measures 13° - 20' or 800 minutes in longitude. These 27 constellations are divided among nine planets. Each planet consists of **2¼** stars or 9 Padas. These 27 constellations are further divided into 249 parts and each part is called sub lord.

9. Sub lord -: The 27 constellations were divided into 249 parts. Each part is called sub lord. It was the valuable contribution of **Late K.S. Krishnamurti** to **Astro-world**. How this sub lord is worked out and what it signifies has been explained at appropriate place?

10. Ruling Planets -: It is **also** an innovation of K.P. Inorder

to reach the timing of any event ruling planets are most helpful. With the help of Ruling planets one can pin point the event with correct date & time.

11. Significators -: It is also the new concept. **Significators** signify the matter in question. In fact the **Signif**icators hypothesis rest **on** the use **of** constellations lord in predictive astrology.

3.

Importance of Horary Astrology

The utility of any science, whether it is astrology or any other subject lies in the fact what the society in general gets benefit of it. If any subject which ceases to yield benefic results to society it becomes obsolete in due course of time. Time is an important factor in astrology. In fact Astrology cannot be imagined without time. Therefore, in some sacred texts time is declared to be God. Horary astrology has greater utility than natal astrology in today's fast changing world.

1. Almost **in** all the horoscopes time **is** not recorded correctly. This error lies in the fact that even two watches in the same **room** do not **show** identical time. When a baby is born either in hospital or in a nursing home the watch in the labour room is **un-identical** to the watches of the parents waiting outside the labour room. The difference between watches may range from four minutes to eight minutes. **The Minute difference of three to four minutes changes sub lord of cusp which ultimately changes the reading of entire nativity.**

2. The principles governing natal astrology cannot be verified easily. Whereas predictions made in horary astrology may be verified within hour, days or months because query is always related to coming days or months. **Therefore,** horary astrology is the best method for carry out research in the field of Astrology.

3. **Horary** astrology works on certain proved principles.

The significations of planets and houses can be easily ascertained. There are many significations of planets and houses but the particular signification of a particular planet or house is only known with the help of horary astrology.

4. Pin point prediction devoid of double meaning sense could be possible only in horary astrology. In horary astrology the answer is given either in Yes or No. Apart that horary astrology gives the exact date and time for the fructification of any event, which is never possible in Natal astrology.

5. Day to day events like arrival of friend, **light gone when will come back**, rumor is false or true, reservation of berth in train is possible or not, love affairs will materialize or not, etc can be answered only by the horary astrology.

6. Horary astrology has greater utility when question pertaining to wining or losing of three or four persons who are in election fray comes up. Horary astrology deals effectively with such questions.

7. Horary astrology is also helpful in deciding bride & bridegrooms among the list. It not only clearly & effectively decides but also gives precise judgment about the character and nature of bride & bridegroom.

Brief Description of Ancient Text Books of Horary Astrology

The principles enunciated in traditional text book on horary astrology can not be branded as whole thing in general. It should be admitted candidly that progress made in recent times in astrology is the out come of serious work on traditional books. Therefore the importance of traditional astrology can neither be minimized nor overlooked.

The principles found in old books are cosmopolitan in nature and deep study of these principles reveals **unfailing** predictions.

Today in **fast** moving word it is not possible to give much time and energy to study these principles and majority of astrologers need easily remembered, research proved and least time consuming formula which could be applied even while moving on a busy road.

For the benefit of the readers of this book, translations of few old books on horary astrology have been made.

Prasna Gyana -:

1. Bhattotpala is the author of this book and work commences with the bowing of all the planets(Sloka - 1)

2. Horary astrology never fails boldly declared by Bhattotpala. Ten conditions of planet are to be kept in mind before answering any horary question. **(Sloka - 2)**

The ten conditions are as follows -:

i. **Deepta** -: If the concerned planet is **found** to be either in exaltation sign or in Mooltrikona sign, the planet is said to be in Deepta stage. This condition shows good results.

ii. **Swastha** -: When the planet is found **to** be in own sign, the condition is called Swastha and shows good results.

iii. **Pramudita** -: Planet in **friendly** sign. Result is moderate.

iv. **Shanta** -: The planet if **placed** in the Vargas of any benefic planet is called Shanta. Maharishi Parasara propounded Vargas kundali viz. Navamsa, Dasmansa, Dwadasamsa etc. If planet is found to be in benefic sign in these Vargas is called Shanta. Such planet offers positive and favorable results.

v. **Shakta** -: **The** planet if not eclipsed is called Shakta and the result of such planet is good.

vi. **Prapidita** -: The planet defeated in war by another planet. The result is **bad**.

vii. **Deena** -: The planet if posited in inimical sign is called in Deena condition. Result is bad.

viii. **Khal** -: When planet is placed in the sign of a malefic planet. Result unfavorable.

ix. **Vikala** -: When planet is eclipsed. Result is bad.

x. **Bheeti** -: When planet is debilitated or in the sign of inimical planet. Result is bad.

3. The face of querent should always be towards east. The seat of Astrologer be adjusted in the manner that querent is facing either east or Northeast. (Sloka - 3)

4. The querent must offer flowers, fruits, clothes etc to the astrologers. The place of astrologer is surrounded by calm & pleasant environment. The **querent** should be attended to either in the morning or during midday. Preference is given to morning time. Avoid answering in the evening or during sunset. (Sloka - 4)

5. If benefic planets viz. Venus, Mercury or Jupiter be posited or aspect the house concerned with query, the result is favourable. (Sloka - 8)

6. Positive result may be declared if 1,4,7,8,10 and 12 Houses are devoid of placement of malefic planet **and** 1, 4, 7, 10 houses are occupied either by lord of ascendant or friend of lord of ascendant. (Sloka-11)

7. **Benefic** planets (Mercury, Jupiter, Venus) if placed either in fifth house or Ninth house or malefic planets (The sun, **Mars** and Saturn) are placed in 3, 6 or 11 houses, the result obtained in such condition is good. (Sloka- 12)

8. If malefic planet is posited in horary ascendant then the result is diseases and dispute. If malefic planet is placed in fourth house, the result is disagreement among the relatives. (Sloka - 13)

9. If seventh house of horary chart is occupied by malefic planet, there are obstacles and impediments in the journey met with difficulties. All undertakings show failure if tenth house is occupied by a malefic planet. If malefic planets are conjoined with benefic planets in above said conditions then **malefic** planets create **obstacles** while **benefic** planets remove obstacles and give auspicious results. (Sloka - 14)

10. If horary ascendant falls in fixed sign viz., Taurus, Leo, Scorpio or Aquarius the querent will not be defeated. He suffers from diseases; stay at one place but begets the desired position. (Sloka - 15)

11. If horary ascendant happens to be either Aries, cancer, Libra or Capricorn one will be defeated, free from diseases, make journey but **will not** have any position or improvement in status. (Sloka - 16)

12. If benefic planets are posited in 1, 4, 5, 7, 9, or 10 houses **and** malefic ones are posited in 3, 6, 11 then success and return of gone person is indicated. (Sloka - 17)

13. If Jupiter or Venus is placed in either second house or

third house the gone person will return soon. If **such** benefic planets are placed in fourth house, it indicates quick return.
(Sloka - 19)

14. If mercury and Venus are placed second or twelfth to either ascendant or moon sign the native will return soon.
(Sloka - 20)

15. The enemy will come with forces if ascendant and Navamsa fall in movable sign (Opposition, litigation or enmity can **also** be taken as result of such conditions). If moon is placed in movable sign, Ascendant and Navamsa fall in immovable sign then enemy does not come. (Sloka - 21)

16. The enemy can not dare to attack in spite of having adequate might if Mercury, Jupiter and Venus are placed in sixth house and Moon occupy common sign and ascendant happens to be in immovable sign. (Sloka - 22)

17. The enemy proceeds but goes back if fifth and sixth houses are occupied by malefic planets (This general condition may be taken as Litigation will start on but soon come to an end.) the enemy can reach to the home but will retrace back if fourth house is occupied by malefic planets.
(End of litigation)
(Sloka - 23)

18. The querent will be free from disease if Jupiter aspects ascendant and Moon & Venus are posited there in or Jupiter occupy **1, 4, 7, 10th** house.
(Sloka - 28)

19. The querent will be married if moon is either in **3, 6, 7, 10** and **11th** and aspected by Jupiter. If moon is aspected by malefic planet it indicates delay in marriage. (Sloka - 29)

20. The querent will be married or one will be married if benefic planets are placed in **1, 4, 5, 7, 9** or **10** houses. The characteristics of future partner i.e. status, character, outer appearance etc. will be good, if seventh house is occupied by benefic planet.
(Sloka - 31)

21. Child is born if benefices are placed in fifth and eleventh houses. Male child is born if the Sun, Moon Jupiter and ascendant fall in **1, 3, 5, 7, 9, 11** signs.
(Sloka - 32)

22. Female child is born if said planets & ascendant falls in 2,4,6,8,10,12 signs. If few planets & ascendant falls in male sign & few in female signs then sex of to be born child should be determined according to the strength of planets falling in a particular sign. Male child is to be predicted, if Saturn falls in either 1,3,5,7,9,11 houses. (Sloka - 33)

23. Male child is to be predicted if Jupiter & Venus are placed in male signs. If Jupiter, Mars & Moon are placed in even signs then female child is to be predicted. (Sloka - 34)

24. Rain -:

i. If ascendant falls in Cancer, Capricorn or Pisces sign and both Venus and Moon are posited there in.

ii. Good Rainfall is to be predicted if Venus & Moon are placed with Ketu and aspected by benefic planets. If above configuration of planets is aspected by malefic planets then scanty rainfall is to be predicted.

iii. If query is during rainy season **and** if Venus and Saturn are either placed seventh to the sun **or** moon or placed second, third, fourth or eighth house from ascendant, the rain will occur, should be predicted.

iv. If watery sign falls in ascendant and Moon or benefic planet is placed in ascendant or placed 2,4,7, or 10th house from ascendant indicates the possibility of rain.

(Sloka - 43, 44, 45, 46)

25. Theft-:

Comments -: The principles propounded in traditional texts cannot be out rightly rejected. The aim behind the translations of these texts is to make readers familiar with the knowledge of different principles so that they could understand the basic nature of planets & signs.

Only those shlokas have been translated which have been found to be useful to readers. Readers may take long time to verify the practicality of the principles. But these principles can provide adequate knowledge about the nature & behavior of the planets as well as signs and may be applied in **solving** day-to-day problems of horary astrology. Above

Brief Description of Ancient Text Books of Horary Astrology 41

principles can also be used in K. P. astrology. It will not only enhance the quality of horary astrology but also make it refined and rectified.

I too have found few principles to be absolutely correct. For example Uttarkalamratam Sloka 10 states that result of the question is obtained shortly if the **lord** of the house concerned with query is exalted. Similarity Shatpanchasika chapter 1 Sloka 5 states that lost article is recovered if moon in ascendant is aspected by Jupiter & Venus, Both examples have been found to be correct in many cases.

It is humbly requested to readers that the foundation of astrology lies in the permutation & combination of lights. If astrologers give logic in the explanation of any combination of planets then the mystery of planets can be revealed. In foregoing examples Sloka 5 of Shatpanchasika chapter I states that lost articles will be recovered if ascendant with moon is aspected by Jupiter & Venus. The Logic behind is that moon & ascendant **both are** aspected by two most benefic planets viz. Jupiter & Venus. Both the Lagans i.e. moon & Lagna are under the influence of most benefic planets.

As I have said above that astrology is the permutation & combination of lights and Thus the impact of lights emanating from various planets is studied in astrology. Whenever planet comes **at** a particular degree in space many important events take place. The research should be made on such particular degrees attained by planets during their motion in zodiac.

Significations of Planets & Signs

The Sun -: **The Sun** is the significator of soul, represents father of the native and a source of divine knowledge. The Sun is known as *kroor Graha*, means intensity to results. Following **significations** are ascertained from the Sun particularly in horary astrology.

Moon -: Moon is very important planet in horary astrology. Moon is the significator of mind. Therefore it reveals the immediate condition of mind. **Non co-relation** between query and the position of moon in horary chart

indicates insincere attempt to test the knowledge of the astrologer. The natural and sincere desire to know the result of **horary** question absolutely gives pinpointed correct results. The moon assumes greater significance in horary astrology **therefore** its study from various angles is necessary. These are the following significations of moon:

(i) **Mind**, (ii) Mother, (iii) Water, (iv) Ups & down (v) Imagination, (vi) Dream, (vii) Daughter, (viii) Gains, Through, women, (ix) **Change** & changeability, (x) Happy family life, (xi) Sea Voyages (xii) Brain (xiii) Young girl (xiv) Rains, (xvi) Flood, (xvii) Milk etc.

Rahu & Ketu -: Indian astrology does not assign any particular signification to **Rahu** and **Ketu**. Rahu, generally denotes thief, jail and Jailor. Ketu shows liberation or final emancipation. Rahu & Ketu have got special **attention** and importance in horary astrology. Therefore, appropriate discussion on Rahu & Ketu have been included for the benefit of the readers at appropriate place.

Uranus, Neptune, and Pluto -: Westerners have done a lot of research on these planets. Though late Krishnamurti had advocated the distinct effect of these planets yet he himself did not take into account their impact on **human** beings. I too personally have not verified their impact on human behaviour and nature. Therefore nothing is written here about these planets.

Signs -: Krishnamurti Paddhati has not given much importance to the signs. However this unique **link** of astrology as a whole can neither be under estimated nor overlooked in any way because it is primary determinant to the strength of any planet. Secondly in various questions of horary astrology viz. theft, marriage etc direction of materialization of event is indicated by the signs.

Houses

Introduction -: As per Hindu traditional astrology the entire zodiac is divided into twelve equal parts. Each equal part is called house or Bhava. Each Bhava or house measures 30° in longitude. Thus $30 \times 12 = 360^\circ$. Thus the entire zodiac is 360° in longitude. Krishnamurti Paddhati has used the word 'cusp' for a particular Bhava akin to the concept advocated by western astrologers. Cusp is actually the beginning point of a house. K.P. advocates the birth chart or horary chart to be cast on Placidus system. Placidus system encompasses unequal house division in sharp contrast to equal division as propounded by ancient Indian Astrology. In Placidus system a cusp or house varies from other house in longitudes i.e. a particular Bhava may be of thirty degrees or less than thirty degrees or more than thirty degrees.

Sub lord

The zodiac is divided into 27 constellations or stars. Each constellation is $13^{\circ} - 20'$ or 800 **minutes** in longitude. Each constellation is divided into 4 quarters or pads. Each sign or Rasi consists of $2\frac{1}{4}$ constellations i.e. 9 pads.

Each sign or Rasi = 30° or $30 \times 60 = 1800$ min.

Each quarter of constellations = $3^{\circ} - 20'$ or $(3 \times 60) + 20$
= 200 minutes

Each sign consists of 9 quarter of constellation i.e.

$200 \times 9 = 1800$ min.

Each constellation has four quarters. Therefore 27 constellations will have $27 \times 4 = 108$ quarters.

These 108 quarters have further been divided into 249 parts. Each sub divided Part is called **sub lord**.

For example Aries sign consists of 4 quarter of Ashwini star, 4 quarters of Bharni star and one quarter of Kritika star.

Ashwani star is ruled by Ketu and have been allotted 7 years out of 120 years of Vimshottari **dasha pattern**. Ashwani star is $13^{\circ} - 20'$ or 800 min. in longitude. Now 800 min of ashwini star are further divided in respect to 7 years of Ketu. The result obtained is called sub or sub lord of Ketu.

How to work out sub lord -:

Sun = $800 \times 6 / 120 = 40$ min

Moon = $800 \times 10 / 120 = 66.66$ min

$$\text{Mars} = 800 \times 7 / 120 = 46-40''$$

$$\text{Rahu} = 800 \times 18 / 120 = 120 \text{ min or } 2^\circ - 0'$$

$$\text{Jupiter} = 800 \times 16 / 120 = 106.66 \text{ min or } 1^\circ - 46' - 40''$$

$$\text{Saturn} = 800 \times 19 / 120 = 126.66 \text{ min or } 2^\circ - 6' - 40''$$

$$\text{Mercury} = 800 \times 17 / 120 = 113.33 \text{ min or } 1^\circ - 53' - 20''$$

$$\text{Ketu} = 800 \times 7 / 120 = 46' - 40''$$

$$\text{Venus} = 800 \times 20 / 120 = 133.33 \text{ min or } 2^\circ - 13' - 20''$$

Ashwani is the first constellation of Aries sign ruled by **Ketu**. Therefore the first sub will be of Ketu followed by Venus, Sun etc, It could be understood as, in Jupiter Mahadasha and Ketu antardasha the first **pratyantara** dasa will be of Ketu, second belongs to Venus and so on. Sub lord can also be assumed to be pratyantara lord.

Example 1- Aries **sign** consists of four quarters of ashwini star

$0^\circ - 0'$ to $3^\circ - 20'$ - Ist quarter

$3^\circ - 20'$ to $6^\circ - 40'$ - IInd quarter

$6^\circ - 40'$ to $10^\circ - 0'$ - IIIrd quarter

$10^\circ - 0'$ to $13^\circ - 20'$ - IVth quarter

In sub lord calculations the first quarter of ashwini which extends **from** $0^\circ - 0'$ to $3^\circ - 20'$ has been divided. **Now** first quarter that is ruled by Ketu as per traditional astrology is now divided into 3 parts that are successively ruled by Ketu, Venus and Sun.

$$0^\circ - 0' + 46' - 40'' \text{ (sub extension of Ketu)} = 0^\circ - 46' 40'' * \text{Ketu}$$

$$0^\circ - 46' - 40'' + 2^\circ - 13' - 20'' \text{ (sub extension of Venus)} = 3^\circ - 0' - 0'' = \text{Venus}$$

$$3^\circ - 0' - 0'' + 40' \text{ (sub extension of sun)} = 3^\circ - 40' - 0'' - \text{Sun}$$

When any planet or cusp **falls** in between these longitude in Aries sign will have sub lord as per extension it has got as per above calculation.

Example - 2

Aries sign - **Bharni** star ($13^{\circ} - 20'$ to $26^{\circ} - 40'$)

Bharni star - $13^{\circ} - 20' - 16^{\circ} - 40' =$ Ist quarter

$13^{\circ} - 20' + 2^{\circ} - 13' - 20'' = 15^{\circ} - 33' - 20'' =$ Venus

$15^{\circ} - 33' - 20'' + 0' - 40' - 0' = 16^{\circ} - 13' - 20'' =$ Sun

$16^{\circ} - 13' - 20'' + 1^{\circ} - 6' - 40'' = 17^{\circ} - 20' - 0'' =$ Moon

After adding the value of other sub lords the extension of other sub lords is determined. It means if **any** planet moves or cusp falls **between** $16^{\circ} - 13' - 20''$ to $17^{\circ} - 20' - 0''$ in Aries sign will have moon as its sub lord.

Comments -: The concept of sub-lord is the out come of research carried over decades by late Krishnamurti. It is positive out come and has universal applications. The principles enumerated in traditional astrology have their own utility without an iota of doubt. But such principles cannot be applied to know the event of day-to-day activities and miserably fail to answer the questions like light gone when it will come back? Son gone to school when he will return? When and which time result of examination will be declared? There are many more questions pertaining to day to day life can be answered positively with the help of sub lord theory. It is an innovative discovery of astrology which has given scientific approach to astrology and this is no doubt a discovery equals to miracle.

Ruling Planets & Significators

Ruling Planets :- The discovery of ruling planets is another milestone of astrology. To pinpoint the timing of events with great accuracy is another great service of astrology by Late Krishnamurti. Ruling planets means the planets which rule the moment at the time of judgement of any question. Ruling planets are worked out from ascendant and the position of Moon at the time of judgement. Ascendant is the basic foundation of planetary influence and Moon is the significator of mind. Mind receives influence of planets more quickly and more over one has to interact with worldly matters with the application of mind. Secondly the position of Moon either in horary chart or natal chart is considered to be ascendant and called Moon Lagna. Desires, will etc are the **functions** of mind. Therefore, planets influencing mind and ascendant are taken ruling planets to co-relate query asked and its ultimate future.

In KP. there are major five ruling planets :-

- (i) Ascendant Lord
- (ii) Ascendant star lord or constellation Lord.
- (iii) Moon Sign Lord
- (iv) Moon Constellation lord or star lord.
- (v) Lord of Day.

Lord of day means judgment day. Each day is ruled by a planet. Monday is ruled by moon, Tuesday is ruled by mars and so on. For the benefit of the readers a table showing day and its ruler is given below.

Day	Ruler
Sunday	Sun
Monday	Moon
Tuesday	Mars
Wednesday	Mercury
Thursday	Jupiter
Friday	Venus
Saturday	Saturn

Apart above said five ruling planets **Rahu Ketu too are** considered **ruling planets** with the following conditions:

(i) If Rahu & Ketu are either associated or conjoined with one or more of the ruling planets.

(ii) If Rahu or Ketu have occupied the sign the ruler of which in one of the ruling planets.

(iii) If day lord appears once among the ruling planets **then Rahu & Ketu though conjoined with day lord or occupy the sign of day lord are not reckoned as ruling planets.**

The followers of K P in later stage also considered sub lords of ascendant & the moon as ruling planets. We have not considered sub lord of either ascendant or the moon as ruling planets. Sometimes we have considered Hora lord as ruling planet **replacing** day lord. For the benefit of the readers Hora table is given

Time	Day						
	Sun	Mon	Tue	Wed	Thur	Fri	Sat
6-7 A.M.	Sun	Moon	Mars	Merc	Jup	Ven	Sat

5-6 A.M.	Merc	Jup	Ven	Sat	Sun	Mo	Mars

The Hora lord rules the moment at the time of judgment of query. For example a question is asked on Wednesday at 4 P.M. On Wednesday the Hora between 4 to 5 P.M. is ruled by Jupiter. So Jupiter may be taken as Hora lord in place of day lord Mercury among the ruling planets. The actual Hora is determined with the rising of the sun and extends for one hour as the word Hora itself **signifies**. The first Hora is always of the day lord followed by planets in increasing velocities. For example the first Hora of Monday is ruled by moon followed by Saturn Jupiter etc. As the cycle of seven planets ends again new cycle start with first Hora lord i.e. the Hora lord that ruled the moment at the time of rising of the sun. **In**

the above table a standard time i.e. 6 to 7 A.M. **has** been taken as the rising time of the sun to any locality of India.

COMMENTS ON RULING PLANETS: -

Ruling planets are very important to decide the future of any event or also speak well whether the desire of the querent will **be fulfilled** or not. If desire is to be materialized then timing of the event?

Following tips regarding **ruling** planets would be of immense use to the astrologers: -

1. Ruling planets are always linked with the success or **failure** of the query.

2. If ruling planets are associated with the houses concerned with query and simultaneously the instant antardasa is related with ruling planets the desire of the querent is fulfilled.

3. If ruling planets are concerned with the houses related with query but the instant. Antardasa if not linked with ruling planets shows delay or **failures** of the query.

4. If Rahu or Ketu or both becomes ruling **planets**, then Rahu & Ketu are considered seriously because Rahu & Ketu are always stronger than the planets.

5. Ruling planets are the only key to select beneficial Significators that contribute to materializations of the desire.

6. The delay is portend if any of the ruling planets are in retrogression.

7. The ruling planets in order of their strength to bestow results are as follows

- i) Ascendant Lord
- ii) Ascendant star lord
- iii) Moon Star Lord
- iv) Moon sign lord

v) Day lord or Hora lord

Specific Comments over selection of Ruling planets: -

There is some sort of confusion over the selection of ruling planets. Few section of astrologers take ascendant lord and star lord of rising sign at the time of Judgment of query even if the question is solved with **the** help of horary number between 1 & to 249. Here we would like to clarify and emphasis that this way of selection of ruling planets is completely fallacious **and** may lead to confusing **predictions**. The sign lord and star lord of ascendant of rising sign are taken only when the query is solved without horary number and simply the judgement **time** is taken. If one is proceeding with the help of horary number then one should take sign lord and star lord of the horary number. **After solving more than one thousand horary questions, it has been found that sign lord & star lord of ascendant of horary number without exceptions always help to reach right conclusion.** So one should not fall victim to illogical method of selecting ruling planets. The ruling planet taken in Part 2 of this book comprises sign lord & star lord of ascendant or Ist cusp of horary number. Readers must not get confused.

SIGNIFICATORS

The term Significators implies those planets that contribute towards fructification of the results of a particular house or houses.

According to K.P. Significators are determined as follows:

- i) The planet or planets posited in a house. Such planet or planets are called occupants.
- ii) The planets posited in the constellation of the occupant.
- iii) The planets posited in the constellation of the lord of the house.
- iv) The lord of the house.
- v) The planets which are conjoined with above said

Significators.

vi) The planets those are aspected by Significators.

vii) If Rahu or Ketu or both are conjoined with above Significators.

The above Significators **have** been listed below as per their strength to offer the results: -

i) The most powerful Significators are Rahu and Ketu if they are conjoined with other Significators.

ii) Next in strength the planet that is posited in the constellation of the occupant.

iii) Next in strength is occupant.

iv) The planet posited in the star or constellation of the lord of the house.

v) The least effective is the lord of the house.

vi) The planets other than Rahu & Ketu that are conjoined with significators.

vii) The planets those are aspected by significators.

The above list shows strength in decreasing order i.e. (i) is more powerful and (vii) is least powerful.

Cusp (Bhava) Determination

There are two methods for the determination of cusp.

i) The first method comprises taking ascendant at the time of judgement.

ii) The second method takes ascendant of the number from the range of 1 to 249 as mentioned by the querent.

FIRST METHOD: (Taking rising sign at the time of Judgement)

EXAMPLE: A question is asked on 17-01-03 at 10 A.M. Place of Judgement is Agra.

SOLUTION: If the question is solved on 17-01-03 at 10 A.M. then ascendant is worked out. If the question is not immediately solved then later time and date be taken to work out the ascendant. In order to answer any horary question the best method is K.P. However due to shortage of time such questions may be solved as per traditional method. If question is attended as per traditional method it is advisable that sub lord of planets must be given serious consideration. How to workout the cusp is same as mentioned in second method with little difference. In this method the degree and minutes of rising sign is taken where as in the second method the lagan is taken of the number as mentioned by the querent.

SECOND METHOD:

Example: A querent gave No 137 in between 1 to 249. The question was judged on 17-01-03 at 10.00 A.M.

HOW TO WORKOUT CUSP: -

No. 137 means Libra Sign $18^{\circ}-6'-40''$ (See horary no table) to **6S** $19^{\circ}-13'-20''$.

In order to solve any horary question with the help of numbers, the commencing number is taken. As horary No. 137 extends from 6S $18^{\circ}-6'-40''$ to 6S $19^{\circ}-13'-20''$ so commencing **part** i.e. 6S $18^{\circ}-6'-40''$ **will** be taken. The number 137 shows Libra Lagna $18^{\circ}-6'-40''$ of Nirvana.

Therefore the first Cusp (Bhava) is 6S $18^{\circ}-6'-40''$.

The other Cusps are worked out as follows.

1. The longitudes of first cusp are converted into Sayana longitude by adding Ayanamsa of the year 2003. The reason is that the **best** book available in the market to workout cusps is Raphael's table of houses for Northern latitudes. The position given in this book is Sayana position.

2. The Ayanamsa of the year (K.P.) $23^{\circ}-47'-40''$

3. Add this Ayanamsa to longitudes of first cusp (Bhava).

i.e. 6S $18^{\circ}-6'-40''$

+ $23^{\circ}-47'-40''$

6S $41^{\circ}-53'-80''$

Or

6S $41^{\circ}-54'-20''$

Or

7S $11^{\circ}-54'-20''$

Or

7S $11^{\circ}-54'$ (seconds can be omitted.)

It means. Now the Sayana position of Ist cusp (Bhava) is **7S** $11^{\circ}-54'$

4. The latitude of AGRA is $27^{\circ}-11''$. Open the page of Raphael book where **latitude** $27^{\circ}-11'$ is given.

5. At the latitude of $27^{\circ}-11'$ the page show Scorpio

11°-48'. But we require ascendant Scorpio **11°-54'.** The difference is 6 minutes. In order to get the value of 6 minutes. The following calculations are made:

i) There are two values given on the page where longitude 27°-11' is given **11°-48'** and **12°-39'.**

$$\begin{array}{r} \text{Difference:} \qquad \qquad \qquad \mathbf{12^{\circ}-39'} \\ - \quad \mathbf{11 \ 48'} \\ \hline \mathbf{0^{\circ} - 51'} \end{array}$$

$$\text{ii) } \quad \frac{60 \times 6}{51} = 7'$$

i.e. what the value is given for second, third and other cusps add 7' to these values.

6. The value of second **cusp** in Raphael table is **8S 11° - 0'.** Add **7'** to this value. Thus the second cusp **will** be **8S 11°-7'.**

$$7. \quad \text{Third Cusp} = 9S \ 12^{\circ} - 0' + 7' = 9S \ 12^{\circ} - 7'$$

$$8. \quad \text{12th Cusp} = 6S \ 17^{\circ}-0' + 7' = 6S \ 17^{\circ} - 7'$$

$$9. \quad \text{11th Cusp} = 5S \ 17^{\circ} - 0' + 7' = 5S \ 17^{\circ} - 7'$$

$$10. \quad \text{10th Cusp} = 4S \ 15^{\circ}-0' + 7' = 4S \ 15^{\circ}-7'$$

11. Now the cusps in Sayana position are as follows

$$\text{First Cusp} \qquad = \qquad \mathbf{7S \ 11^{\circ} - 54'}$$

$$\text{Second Cusp} \quad = \qquad \mathbf{8S \ 11^{\circ}-7'}$$

$$\text{Third Cusp} \qquad = \qquad \mathbf{9S \ 12^{\circ}-7'}$$

$$\text{Twelfth Cusp} \quad = \qquad \mathbf{6S \ 17^{\circ}=7'}$$

$$\text{Eleventh Cusp} = \qquad \mathbf{5S \ 17^{\circ}-7'}$$

$$\text{Tenth Cusp} \quad = \qquad \mathbf{4S \ 15^{\circ}-7'}$$

12. Now deduct **Ayanamsa** to get Nirryana position

$$\text{Sayana Position} \qquad \qquad \text{Nirryana Position}$$

$$\text{1st Cusp} = 7S \ 11^{\circ}-54' (-) \ 23^{\circ}-47'-40'' = 6S \ 8^{\circ}-6'-40''$$

$$\text{IInd Cusp} = \ 8S \ 11^{\circ}-7' (-) \ 23^{\circ}-47'-40'' = 7S \ 7^{\circ}-19'-20''$$

IIIrd Cusp = 9S 12°-7' (-)	23°-47'-40" = 8S 18°-19'-20"
12th Cusp = 6S 17°-7' (-)	23°-47'-40" = 5S 23°-19'-20"
11th Cusp = 5S 17°-7' (-)	23°-47'-40" = 4S 23°-19'-20"
10th Cusp = 4S 15°-7' (-)	23°-47'-40" = 3S 21°-19'-20"

13. Now add 180° to each cusp to get other cusps i.e. Fourth, fifth etc.

First Cusp = 6S 8°-6'-20" + 180° = OS 8°-6'-20"	(Seventh Cusp)
Second Cusp = 7S 7°-19'-20" + 180° = 1S 7°-19'-20"	(Eighth Cusp)
Third Cusp = 8S 18°-19'-20" + 180° = 2S 18°-19'-20"	(Ninth Cusp)
Twelfth Cusp = 5S 23°-19'-20" + 180° = 11S 23°-19'-20"	(Sixth Cusp)
Eleventh Cusp = 4S 23°-19'-20" + 180° = 10S 23°-19'-20"	(Fifth Cusp)
Tenth Cusp = 3S 21°-19'-20" + 180° = 9S 21°-19'-20"	(Fourth Cusp)

Comments -

1. In order to solve horary question with the help of number in the range of 1 to 249, the commencing position is taken as evident in the foregoing example in which the commencing position of Number 137 was taken.

2. The longitudes of cusp shows sign lord, star lord and sub lord of the **particular** cusp. For example the position of third cusp as shown above is 8S 18°-19'-20". Look this longitude in horary table in Sagittarius sign. This number falls between 18°-6'-40" to 20°-6'-40" in Sagittarius which means Jupiter sign lord, Venus star lord and Rahu sub Lord of the third cusp.

3. Time is an important factor in horary astrology. According to K.P. the longitudes of the number mentioned by **querent** does not change with the change of time. The longitude of the number remains the same though the

planetary position changes with the **change** of time of judgement. Suppose a question of **Number** 137 was to be judged on 17-03-06 but due to some reason this question could not be attended on 17-03-06. Now this question is judged on 18-03-06. In this situation the longitude of cusps will be same but the planetary position of 18-03-06 at the time of judgement will be taken. The ruling planets will also change with this new time.

4. Cusp determination takes much time. Therefore it is advisable to esteemed readers that they must prepare Cuspal table for all the numbers for the place where astrologer permanently resides. Ayanamsa increases 50" every year. This value is negligible as far as change of longitudes of cusp year after year is concerned.

5. The astrologers **can** also purchase Cuspal table book that is in Nirayana position and can save valuable time of astrologers. Nishkaam Peeth Prakashan **R-12 A**, Hauz Khas New Delhi has brought out table of houses (Nirayana Position) for the latitude of Delhi.

6. It is also to be kept in mind that the place is also important in working out cusps. If question is judged at Agra as shown in example then latitude **27°-11'** will be judged. If the same question is judged at Delhi then Raphael's book will be consulted for latitude of Delhi i.e. **28°-39'**. In that case Cuspal position of various cusps may change and sub lord will also change though sign lord & star lord will be same.

SOME IMPORTANT SUBJECTS OF HORARY ASTROLOGY

1. Retrograde planets & their impacts: - There are various theories prevalent in astrological world regarding retrograde planet and their ultimate impacts. According to one school of thoughts retrograde planets give the result of previous house. **Another** school of thoughts say that retrograde planets are more **powerful** to give the result because during retrogression the planet comes near to the orbit of the earth therefore its impact is greater at the time of retrogression. Whatever arguments may be but it is beyond doubt that retrograde planets have their distinct impacts. The study of retrograde planets **is much** more important in horary astrology than natal astrology. Retrograde planet has direct relation with the query. Retrograde planets have following effects: -

1. Retrograde planet always shows negation in horary astrology.
2. Retrograde planet shows failure of the question asked.
3. If a retrograde planet is posited in the star of a retrograde planet the result is failure of the query.
4. The result **will** be positive with some delay if retrograde planet is posited in the constellation of planet in **direct** motion. The positive result **will** be obtained when the planet

in retrograde motion will attain direct motion and reaches the position from where retrogression was started.

5. The result after initial delay will be positive if a planet in direct motion is placed in the constellation of planet in direct motion but in the sub of retrograde planet.

6. The result will be absolute negative if sign lord, star lord and sub lord are in retrogression.

7. The result will tend to be favorable after some delay and impediments, if retrograde planet is posited in the constellation of the planet in direct motion but in the sub of retrograde planet.

8. The result will be delay or failure of the query if any retrograde planet or planets find place among ruling planets. Even day lord or **Hora** lord the weakest ruling planet among ruling planets is **found to** be retrograde, shows at least delay in the fulfillments of desire of the querent.

9. Apart from horary astrology it has been found in natal astrology that retrograde planet weakens the results of the house where they are posited. More than one planets in retrogression are found to be present in natal chart portend a struggling life to the native. The lord or star lord or sub lord of seventh cusp is found to be in retrogression in natal Horoscope indicates delay in marriage.

2. Rahu & Ketu in the mirror of horary astrology;

As the nature and behaviour of retrograde planet is always a riddle & complex matter to understand. Similarly the nature and behaviour of Rahu and Ketu have always been a mystery to astrologers. A section of astrologers consider these two shadow planets to offer results like other planets and like other planets their strength; exaltation, debilitation, aspect etc must be taken into account while delineating results. Another section of astrologers treats Rahu & Ketu as mere shadow planets and does not take into account their aspect, strength based on debilitation or exaltation etc. Our

object is not to fall in any controversy regarding various views of astrologers on the nature of Rahu & Ketu. But we want to bring to the knowledge of readers the modus operandi of Rahu & Ketu which **has** been found **to** be correct after a long research carried over more than a decade.

According to Hindu mythological stories a ferocious battle ensued between god and demons during churning of ocean. Both the parties agreed over the pact that whatever begotten through churning of ocean would be equally distributed between both the parties i.e. god and demons. As a result of churning of **ocean** a pot of nectar was obtained. Since Gods were of opinion that demons would create large scale destruction if they got nectar. Therefore, Gods planned to trick them. Lord Vishnu in disguise of a beautiful woman appeared and suggested that Gods and demons sat separately in a queue so that everybody could get a drop of nectar. Rahu the demon doubted the plan and sat in the row among the Gods in disguise of Gods. As soon as Rahu got the nectar and drank it he was detected by the Sun & Moon. The Sun informed the lord Vishnu who in turn immediately beheaded **Rahu** but till the time nectar reached to the throat of Rahu so he was half immortal and could not be killed. Neither the parts of **the** body could unite together. The head part was called Rahu while the part below head was called Ketu.

Analysis of the Story: Mythological stories if properly understood and analyzed, reveals hidden facts regarding behaviour and nature of planet. The above story reveals following facts: -

1. Rahu was the only demon that could detect the plan of gods therefore an intelligent planet.

2. Rahu has nectar in his throat therefore, also gives auspicious results.

3. Rahu was detected by the Sun & Moon therefore an enemy to the Sun & Moon.

4. If Rahu is conjoined or associated with the Sun and the Moon the native suffers on account of his father and mother. He or she is obstinate, egoist, a perfectionist liar and dramatic in behaviour.

5. **Ketu** is abortive and confusing planet because nectar could not reach to the stomach of Rahu. Ketu represents this part.

Modus operandi of Rahu & Ketu:

1. Rahu and Ketu give the results of those planets with which they are conjoined.

2. The result of the sign they have occupied.

3. The result of the lord of the constellation in which they are posited.

4. The result of the planets by which they are aspected.

Importance of Rahu & Ketu in horary astrology: -

1. If Rahu is placed in ascendant the ascendant is completely spoiled. The desire of the querent is not fulfilled.

2. The results are intensified and offered by Rahu & Ketu if they happen to be either **ruling** planets or occupy the sign of ruling planets.

3. If Rahu along with the Sun or Moon is placed in ascendant and the Sun or the Moon being ascendant lord even then ascendant is considered to be spoiled.

4. Rahu or Ketu in ascendant and aspected by Jupiter portends **fulfillments** of desire after some delay and problems.

3. What will be the result of query: -

After a long research it has been **found** by us that **following** tips are quite useful for the readers in order to judge the result of the query.

The result will be positive:

i) If the sub lord of first cusp in direct motion is posited in eleventh house the desire of the native is fulfilled. There

will be some delay or impediments if sub lord of **first** cusp is placed in eleventh house in the sign of debilitation.

ii) If lord of ascendant is placed in eleventh house the desire of the querent is fulfilled. If lord of ascendant is debilitated but placed in eleventh house even then desire is fulfilled. If lord of ascendant is retrograde planet but posited in eleventh house, the desire is fulfilled after delay dejection and problems.

iii) If sub lord of first Cusp or lord of ascendant is placed in fifth house then desire is fulfilled. Saturn being sub lord of first cusp or lord of ascendant in fifth house fulfills desire **after** delay and mental torture.

iv) Fulfillment of desire is promised if the sub lord of concerned house is having connection with either **fifth** house or eleventh house. Suppose in Leo ascendant if mars the ruler of fourth house or cusp or sub lord of fourth cusp is having connection with fifth or eleventh house then query related with purchase of a property in fulfilled.

v) If Jupiter aspects ascendant or the cusp concerned with the query then desire is **fulfilled**.

vi) If the sub lord of first cusp becomes one of the ruling planets

The result will be negative:

i) If ascendant lord of the horary chart is in debilitation and not placed in eleventh house.

ii) If lord of the ascendant of the horary chart is retrograde.

iii) If the sub lord of first cusp is retrograde and also not placed either in fifth or eleventh house.

iv) If lord of the ascendant or sub lord of first cusp is placed either in eighth house or **twelfth** house.

v) If the sub lord of the concerned cusp or lord of the concerned house is retrograde or placed in eighth house.

vi) If Rahu or Ketu is placed in ascendant.

vii) If the sub lord of eleventh cusp or lord of the eleventh cusp in either retrograde or placed in the sign of debilitation.

viii) If Saturn is placed in the ascendant or aspects ascendant.

ix) If ascendant lord or more than one planets among the ruling planets are retrograde.

x) If ascendant is not aspected by Jupiter or other benefic planets like Venus, Mercury and Moon.

4. Importance of Omens in Horary astrology:

Horary astrology is the best method to know the will of god. Each and every particle of this universe **vibrates** due to the cosmic will. This vast universe is the outcome of divine dance of matter and spirit therefore; nature itself wants to convey its message to mortals (Jeeva) through various omens. Some people listens to nature while other take them as ordinary events and ignores the voice of nature.

Omens have great utility in prediction in horary astrology **and** many queries **can** be answered simply on the basis of keen observations of omens presented by nature **at the** time of query. I share my few experiences regarding utility of omens.

One day a friend of mine came to my residence to know the time and date of his promotion. He mentioned one number that I did not recall because this incident was five years old. But I remember the number mentioned by him showed Libra ascendant and the lord of sixth house (service) Jupiter was exalted in tenth house. As soon as I could make prediction the light of my residence went off. I thought a while and said that he had to wait **for** promotion for some time. While we were discussing the promotion episode the light came. I told him that the promotion list that was to be issued within three days would not find his name. The next list would give him promotion. Exactly the same happened what I told him. Here the omen was light that helped me to reach right conclusion about the query. This prediction was

made in the presence of other officers, who took the prediction as miracle.

One more incident will reveal the utility of omens. One day few persons were going to attend some important job. As soon as they came out of their office and sat into the car a boy aged around seven years crying loudly came before the car and also sat in front of the car. I noticed the event and advised gentlemen to come back to office because the task would **not** be accomplished for which they were going. They did not heed the advice and gone and came back without any gain but suffered some kind of humiliation there.

There are many more events that can depict the importance of omens or voice of nature. Any astrologer who is accustomed to listen to the voice of nature can make prediction even while moving on road. Every moment such omens are taking place around us. Sometimes we recognize them and beautifully blend in the prognostications of future. Horary astrologers must have keen observation about such omens while attending horary query. Few cognizable omens like entry of child into room, behaviour of child, direction occupied by querent who enters the room at the time of query, light gone or come, **falling** down of water, telephone call and discussion made over telephone etc must also be taken into account. Apart that omens can be presented into any form, sound, shape etc by the nature and how these are to be apprehended depends on the intelligence of the astrologers. We intend to advise readers that many books provide information regarding utility and description of a particular **omen** but the own judgement of astrologer on any omen is much more useful than any bookish knowledge.

Discussion on Cuspal Chart & Traditional chart

Indian astrology has equally divided the zodiac into twelve parts. Each part measures 30° in longitude hence twelve parts count 360° of Zodiac. On the basis of this division sign or Rasi too has been considered to be of 30° in longitude. The chart prepared to read the results as per K.P. is called Cuspal chart and it is based on Placidus system of Arch division. How to work out cusp has been dealt with elaborately in previous chapters. The reading of nativities on the basis of Cuspal chart is western concept. Western astrologer more goes by astronomical principles rather than perception. They take into account degree to degree motion of the planets and their particular relation they form with other planets and cusps which is known as phenomenon of aspects. This concept of aspect is also different from Indians. As per Indian astrology each part of the Zodiac is always 30° in longitude neither more nor less. While in Placidus system of house division each house varies in longitudes. One house may be of 30° or more than 30° or less than 30° . But the total of zodiac is always 360° . Cusp means the beginning of the house. Due to variation of longitudes in each house in Cuspal chart a planet seems to be placed in different house when compared with that of chart prepared as per Indian systems. This discrepancy creates confusion in the mind of astrologers and often put them in dilemma pertaining to the different place-

ment of planets in Cuspal chart and Indian chart. It has been found by us that horary question must be solved through Placidus system i.e. Cuspal chart.

Indian astrology recognize the importance of sign (Rasi)* and on the basis of sign the strength of the planet is judged. In K.P. such importance has not been given to sign and astrologers following K.P. does not mind the planet which is placed in second house seems to place either in ascendant or twelfth house in Cuspal chart. They are much more concerned with the longitudes of cusps and planets. Now the question is whether the importance of sign be recognized or not? Which method should be adopted to answer horary query. It is our humble suggestion that astrologer must always open his mind to welcome new ideas and new concepts. The importance of sign cannot be ignored and the relation between sign and planets viz. a viz. cusp be studied properly. Sign (Rasi) shows the area of influence of any planet and also shows the strength nature and behaviour of a planet in a particular area. Apart that in many questions it is only through the help of sign, the queries are solved. Few questions like theft, description of thief, direction where one will move etc are answered on the basis of sign falling in a particular Bhava. Now the question is how to get rid of the discrepancies pertaining to placement of planets in Cuspal chart and Indian traditional chart. We are solving such major discrepancy, which is explained with the help of examples: -

1. Suppose a querent gives number 27 for any question. This question was solved on a particular date and time. Horary Number 27 means Taurus ascendant at 7°-0'-0". Now at this particular date let us say Venus is in Taurus sign at 4°-30'. Indian traditional method of casting horoscope shows Venus in ascendant while Cuspal position shows Venus to be in twelfth house because Ist cusp begins from 7°-0'-0" and the longitude of Venus is 4°-30'. Therefore, Venus will shift back to Twelfth house. Astrologers must not read the influence of sign, planet and cusp separately but approach to

integrated relationship among sign, planet and cusp. Now this approach of integrated relationship be applied to understand the effect as well as influence of Venus over twelfth cusp and first cusp. Venus is at **4°-30'** and is in direct motion and is **2°-30'** away from ascendant. It means Venus is **advancing** towards ascendant. Therefore astrologer must predict that Venus in twelfth house shows temporary negations of query but the desire will be materialized in due courses of time because Venus being fast moving planet is ready to leave twelfth house and advancing toward ascendant. Had this Venus **been** in retrograde motion **then** it would have been retracing back from ascendant and **would** be staying in twelfth house, which shows failure of query. Suppose querent would have given number 36 **instead** of 27. It means Taurus ascendant at **20°-26'-40"**. Venus is in Taurus sign at **4°-30'** is **16°** away from ascendant. It means Venus will give the **effect** of twelfth cusp rather than ascendant. In order to get the result of next Bhava the planet must not be away from cusp more than 10°. If the planet is at less than 10° from the cusp of next Bhava it is assumed to **give** the result of next Bhava. Late Krishnamurti had included **two** or three house to answer **any** question that showed that every house was concerned with another house and developed the integrated system of prediction. **This integrated approach proved to be more fruit full rather than unitary system of prediction followed by Indian astrologers.**

Example- 1:- A gentleman wanted to know about his health. He gave number - 46

Horary No. 46,

DOJ. = 08-03-02, TOJ = 19-05, POJ = Shivpuri (MP.)

This gentleman was suffering from headache for the last three or four days and wanted to know the cause Of headache. Such questions **must** be studied from ascendant

because health good or bad depends on the strength of the ascendant and the relationship of ascendant with that of other houses.

The following rules should be taken into account -:

(1) If the sub lord of ascendant is also the significator of sixth house the native never keeps good **health**.

(2) If the sub lord of sixth house is also the significator of ascendant.

(3) If the sub lord or lord of fifth cusp is placed in eighth house the native is likely to be patient of migraine, brain tumor, **etc**.

In the above question the sub lord of first cusp is not having any connection with sixth cusp. The sub lord of fifth cusp Jupiter is not placed in eighth house but having ruler ship over eighth house. Therefore eighth having connection with fifth as well as with ascendant. Therefore he is a patient of headache, which erupts occasionally. But this is not a dangerous case or neither showing any complex problem because neither fifth lord nor sub lord of fifth cusp is posited in eighth house. This kind of headache is the result of mental exertion due to the fact that sub lord of first cusp moon is also significator of third cusp (mental exertion) aspecting ascendant. This mental exertion may also be due to some secret activities of mind (connection of eighth to ascendant), which cannot be expressed, and native is **again** and again thinking over that.

Example - 2 :- One man aged around fifty years posed a query regarding his health problems. He mentioned number 9.

The **question** was judged on 09-09-03 at 4:13 PM. at Morena (M.P.)

This man is always suffering either due to fever, Diarrhea or Blood pressure. He is also weak in constitution.

In order to judge the question related with health

ascendant is properly scrutinized along with six, **twelfth and** eighth houses.

1. The lord of first cusp i.e. mars and sub lord of first cusp i.e. mercury both are retrograde. Rahu is placed in ascendant. In this way ascendant is fairly weak. Though aspect of Jupiter over ascendant will keep the native alive but native will always be ailing with various ailments.

2. The placement of either Rahu or Saturn in ascendant makes one to suffer from blood pressure. In this query Rahu is **placed** in ascendant showing high blood pressure.

3. **The** sub lord of sixth cusp i.e. Jupiter denotes windy element. Sub lord of eighth cusp mars denotes watery element and twelfth cusp sub lord Rahu denotes fiery element. Thus querent is suffering due to disequilibria's of wind, water and fire elements.

4- Since ascendant is completely spoiled therefore there is no possibility of recovery. It is important to not that Rahu will not let him recover and Jupiter due to aspect over ascendant will not allow him to die.

How will be the tenure in the office?

Example - 3 :- One officer who was transferred to another place wanted to know how his tenure would be at this new place?

Judgement :- Horary No - 105

DOJ = 25-08-03, TO J = 6:30 pm, POJ = Agra

When such type of questions are posed before the astrologer then a particular house is not judged but the

strength of whole chart is to be judged. In this question the officer wanted to know whether his tenure would be peaceful or some dispute **would** arise. In that particular question the strength of ascendant and **instant** Vimshottari Mahadasha are to be judged.

The sub lord of **first** cusp Rahu is placed in ninth house in the star of the sun that is placed in twelfth house. Since sun is the lord of first cusp is placed in twelfth house is not conducive because twelfth is the negation of 1st cusp. The lord and star lord of eighth cusp mercury is **placed** in ascendant that is again negative sign. It is also interesting to note that mercury is lord of second cusp placed in ascendant. Ascendant is twelfth to second cusp shows negation to second cusp. Therefore it can be safely said that this officer will not stay longer and will not have peaceful tenure.

At the time **of** judgement the Mahadasha running was that of Saturn and antardasha was of the sun. The Saturn was placed in the star of Rahu and in the sub of Venus. Rahu was placed in ninth house while sub lord Venus was placed in twelfth house. The sub lord of the sun was Jupiter that was placed in twelfth house. Thus this dasa and antardasha might bring his **shifting** from present place because Decanate and Antardasanath are strongly related with **twelfth** house. Twelfth house not only shows mental tensions but **also** indicates unexpected journeys.

Horary No - 161

D OJ = 23-08-2000, T OJ = 3:37 pm, P OJ = Agra

A case in the court was dragging in for a longer time and the judgement was to be delivered on 28-08-2000. This person wanted to know whether the decision would be in his favour or not.

I declared that decision would not be delivered on 28-08-2000 because of the following reasons -:

1. Ascendant is not aspected by any planet. The sub lord of first cusp is placed in the sub of Rahu, which is very slow planet and **also** placed in eighth house a house of hindrance.

2. It has been found by us in a number of cases if at the time of query Saturn and moon are conjoined the matter is inordinately delayed. In this query Saturn and moon are conjoined showing delay.

3. The sub lord of eleventh cusp is Ketu which is confusing and abortive planet. But Ketu is aspected by Jupiter **therefore** it will not give result against the interest of querent but will delay the matter and also maintain status **quo** of the case.

Comment -: The decision could not be delivered on 28-08-2000 and due to aspect of Jupiter over Ketu later on the case was sent back to district administration with the comment to settle the case within two months.

Decision delivered by lower court would be stayed or not?

Analysis:-

Ruling Planets

Ascendant lord -

Mars (R)

Ascendant star lord -

Saturn

Moon sign lord -

Mercury

Moon star lord -

Jupiter

Day Lord -

Saturn

1. Lord of ascendant mars is retrograde and placed in ascendant showing agitating mind. The sub lord of 1st cusp Jupiter is placed in 7th house aspects ascendant.

Though ascendant is **weak** due to placement of retrograde mars yet not completely **damaged** due to aspect of Jupiter over ascendant.

2. The sub lord of 11th cusp is Rahu, which is in the sub of mercury the lord of 11th house placed in 7th house. Therefore ascendant is aspected by two benefic planets shows that decision given by the lower court would be cancelled.

3. It is also important to note here **that** in case of imprisonment either Rahu or Saturn must be strong significator of 12th house. In this query neither Rahu nor Saturn is the significator of 12th house. Therefore further sentence or imprisonment is out of question.

4. At the time of query Jupiter Mahadasha and Venus antardasha is running up to 27 may 2002. Venus being in the star of mercury is stronger than mercury will bring relief to the querent. However the fine imposed on the querent by the lower court will not be reckoned due to aspect of Saturn over 12th house.

Example - 6 -: An I.A.S. officer's case was running in the court and decision is to be delivered Soon. She in anxious state of mind asked what would likely be the decision of court.

Horary No - 49

The court case was pertaining to her transfer to another

state as a result of division of the state. She does not want to go to newly created state and wants to stay in **original** cadre.

Analysis -:

1. The ascendant is aspected by Jupiter. The ascendant lord mercury too is aspected by Jupiter in ninth house showing fulfillment of her desire.

2. The sub lord of first cusp Saturn is one of the ruling planets again **shows fulfillment** of her desire.

3. **However** it is to be noted here that at the time of **judgement** of query the Jupiter **was** retrograde showing delay. Moon and Saturn were together again showing delay.

On the basis of above analysis it may be concluded that there may be problems but she will stay in her original state.

Example 7: A young man desirous of contesting election on the ticket of a national level party posed the query whether he will get the ticket or not.

He mentioned No. 51.

Horary No = 51

D OJ = 19-09-2003, T OJ = 2: 22 pm, P OJ = Morena

Analysis -:

1. In order to ensure political success Vth cusp and Xth cusp must have relation with each other and simultaneously must have connection with Jupiter and Mars. Jupiter and Mars together show courage as well as authority.

2. This gentleman will get the ticket or not will be decided by the strength of ascendant.

Ruling Planets

Ascendant lord = Mercury (R)

Ascendant star lord = Rahu

Moon sign lord = Mercury (R)

Moon star lord = Rahu

Day lord = Venus

Ticket will be given to him or not

1. Ascendant is occupied by Saturn. Therefore ascendant is quite weak. Ascendant lord mercury is retrograde and lord of 11th house is also retrograde.

Therefore there is no possibility of getting him ticket.

2. The lord of Vth house Venus is debilitated.

3. As has been described in previous chapter if one or more than one ruling planets are retrograde then desire is not fulfilled. Therefore, this young man will not be able to get the ticket.

Comment: - He was denied ticket.

house denotes liquid assets and financial position with depreciated or improved banking position. Since matter is related with Job **therefore** sixth house (service) **and** eleventh house (fulfillment of desire) apart from second house are considered.

Ruling Planets

Ascendant lord =	Mars (R)
Ascendant star lord =	Venus
Moon sign lord =	Mars (R)
Moon star lord =	Jupiter
Day lord =	Saturn

It is always important to see the strength of ascendant irrespective of the nature of the query. Secondly for the quick fulfillment of desire ascendant must have connection with eleventh house.

Analysis -: (i) The ascendant lord mars is retrograde and also posited in own star showing failure of the question.

(ii) Saturn is posited in ascendant.

(iii) Thus ascendant is fairly weak.

(iv) The sub lord of second cusp Jupiter is in the sign of mars the lord of sixth house and in the star of Ketu, which is placed in tenth house. Thus Jupiter becomes the significator because Jupiter having connection with sixth house through sign not through star or sub.

(v) Ascendant is not having connection with eleventh house.

(vi) The positive feature is that sub lord of eleventh cusp mercury is placed in second showing maintenance of flow of money and increased bank position.

(vii) From above analysis it is evident that after delay and mental torture the querent will be reinstated with **following** conditions.

(i) The salary of the suspension period will not be paid because the star lord of second cusp moon is debilitated.

(ii) The sub lord of sixth cusp is placed in twelfth house shows transfer after reinstatement.

(iii) The suspension will be revoked during Jupiter Mahadasha moon antardasa and Venus pratyantara which runs from 22-09-99 to 22-12-99. Venus is one of the ruling planets and also lord of second and is placed in third house. Venus is in the star of Jupiter, which is placed in twelfth house. Thus Venus is having connection with third, second and **twelfth** houses respectively.

Note -:

The querent was reinstated on 10-11-99 and transferred to Rewa (M.P.)

For improvement in financial position either the sub lord

of second cusp or star lord in which sub lord of second cusp is posited must have connection with eleventh cusp.

If the sub lord of second cusp is also the significator of ascendant then it shows negation of the query.

Analysis -:

(i) The sub lord of second cusp Saturn is also the sub lord of Ist cusp. **Therefore** it shows negation of the query.

(ii) Saturn is also the lord of eleventh cusp shows slowly the financial position will improve.

(iii) The ascendant lord Venus is placed in eleventh house in the sign of Saturn. Therefore the banking position will improve but with very slow pace due to influence of Saturn.

Ruling Planets

Asd lord = Ven

Asd star lord = Sun

Moon sign lord = Sat

Moon star lord = Mars

At the time of judgement Mars Mahadasha was operating. Mars is placed in second house in the star of Rahu in the sub of Saturn. In this way mars has got connection with second, sixth and eleventh. Moon sign lord -	Moon

Day lord -	Mars (R)

The question is not related with transfer. Transfer or **shifting** from a particular place takes place when significator of 3rd, 10th and 12th operates.

Analysis of the query -:

1- No - 74 as mentioned by querent denotes cancer ascendant, which is a movable sign. Moon the planet of journeys is placed in ascendant. Therefore this officer will not stay for a longer time at his present place.

2- **The** sub lord of 3rd cusp is Ketu, which is placed in **IVth** house in the star of Jupiter and in the sub of moon. **Both** moon and Jupiter are placed in ascendant fourth house denotes present place. The sub lord of 10th cusp is Jupiter, which is placed in ascendant. Therefore both Ketu and Mercury are not having connections with 12th house. Therefore he is not likely to be transferred in near future.

3- At the time of, query Mercury Mahadasha and Mars antardasa is running up to 15-12-03. Since Mars is retrograde therefore he will not be transferred up to **15-12-03.**

Example 11 :- An old man wanted to know about the sex of the to be born child of his fourth son he mentioned No - 235

Horary No. 235

D OJ = 16-9-2003, T OJ = 3:05 pm, P OJ = Delhi

The father of a son who is fourth in number asked this question and the old man is a grand father of to be born child. If question is related with first son or daughter then

Vth house is considered. For second, Third children. 7th and 9th houses are considered respectively. When the query is related will fourth son so 11th house is considered as the ascendant of **IVth** son. The query is related with the first child of fourth son hence 3rd house is Vth (first child) to 11th house (fourth son)

Analysis -: 1- The sub lord of 3rd cusp is Rahu and lord of 3rd house is Venus. Venus and **Rahu** both are female planets i.e. first child will be a female child.

2- The lord of 11th house is Saturn, which is also a female planet.

3- The sub lord of Vth cusp (7th to 11th denoting wife of fourth son) is Rahu and the lord is moon. They both are female planets. Therefore the born child is likely to be **female**.

Example - 12 -: A student appeared in competitive examination and exams were conducted on 17-10-2001, 3-12-01 and 9-12-01. Whether the student will get through in this exam? The grand father of this boy asked this question.

Horary No - 78

D OJ = 17-12-01, T OJ = 4:30pm, P OJ = Agra

The boy is the son of the elder's son of querent. Therefore

fifth cusp will denotes the ascendant of grand eldest son and fifth to fifth is ninth cusp. Hence ninth cusp will denote grandson.

1- In order to get through any examination whether it is competitive examination or college examination the dasa and antardasa of **4,9,and 11** must operate.

2- The fourth house from ninth (grand son) is twelfth. 9th house from 9in is fifth and eleventh house from ninth is seventh. So houses **12,5** and 9 will be judged for the success of grandson.

Significators -:

(i) Twelfth house -: Mercury (lord of twelfth) Venus (in the star of mercury) Rahu (sign occupied of mercury and aspected by Venus) Thus the significator of **twelfth** cusp are Mercury, Venus and Rahu.

(ii) Fifth house -: Ketu, Mercury, Rahu, Sun, Moon, Mars.

Note -: *How to find out significator has been described in chapter eight.*

Seventh house -: Mars, Rahu, and Saturn

Thus the significator **are Mercury**, Ketu, Venus, Sun, Moon, Mars, Rahu, and Saturn. **All** the planets are significator. The best method to sort out beneficial Significators is to match them with ruling planets at the moment of Judgement.

Ruling Planets

Asd lord -	Moon
Asd star lord -	Mercury
Moon sign lord -	Saturn
Moon star lord -	Sun
Day lord-	Moon

Mahadasha operating -: Sun Mahadasha and Jupiter antardasa runs up to 27-04-02. Since Jupiter is not ruling planet therefore the boy will not get success in examination.

The boy will be selected in sun Mahadasha and Saturn antardasa because Saturn is not only Significators but also lord of seventh house i.e. eleventh to ninth house. Sun is placed in fifth house, which is 9th to 9th house. The dasa of Saturn in sun Mahadasha will operate from 27-04-02 to 7-05-03. In this dasa and antardasa too the pratyantara of mercury will bring success to the boy.

Analysis -: (i) **The** dasa of fourth, Ninth and eleventh must operate to ensure success in examination.

(ii) Significators -:

(a) Fourth house -: Mercury, Sun, Ketu, Mercury is strong significator being in its own star.

(b) Ninth house -: Ketu, Mars, Rahu

(c) Eleventh house -: Saturn

Thus the Significators of above houses are: Mercury, Sun, Ketu, Mars, Rahu and Saturn.

Ruling Planets

Day lord - Mars.

Mahadasha -: Jupiter Mahadasha - Jupiter antardasa and mercury pratyantara operates from 9-04-02 to 21-09-02. Jupiter being lagan lord and very strong ruling planet because Jupiter repeated twice among ruling planets. Mercury is the lord of fourth house and very strong Significators of fourth and Ninth (star lord of ninth cusp) also eleventh (in the sub of Saturn lord of eleventh). Thus this dasa brought success to querent. Her result was declared on 15-04-02. At the time mercury pratyantara was operating.

Horary NO - 64

D O J = 15-05-02, T O J = 8:00 Pm, P O J = Bhopal

1- The sub lord of Ist cusp mars is placed in eleventh house shows incomplete fulfillment of desire because the lord and

star lord of 1st cusp i.e. moon & Jupiter both are placed in twelfth house. However sub lord of 1st cusp is having connection with eleventh house **therefore** her desire would be fulfilled partially i.e. she may be selected for diploma course rather than degree.

Mahadasha -: At the time of judgement Rahu Mahadasha and mercury antardasha was running up to 12-06-02. Mercury the lord of fourth house and one of the ruling planets is retrograde. Therefore mercury will not bring success to her. However mercury is in the star of moon, which is placed in twelfth house that she may go out of India for completion of her post graduation in medicine. This too will happen when mercury attains direct motion.

Comments -: It is imperative to mention here that to judge queries of various natures different houses are studied. But in horary astrology major thrust is always given to ascendant and 11th house. A particular question may be tackled in various ways. It is not necessary every time to know the result of a particular question Significators of concerned houses may be worked out. Significators are worked **out** only when query seems to be **affirmative** by judging the strength of ascendant and 11th house. If query seems to be negative than one should not proceed further. Even at the time of judgement of query. Ruling planets indicate affirmation or negation of the query. The main object behind working out Significators is to reach out timing of events if query seems to be positive. In various examples given in the book Significators have **not** been worked out due to above reasons.

1- For purchasing of land houses 4th, 2nd, 11th and 12th are **to** be judged. The **sub** lord of fourth cusp is Rahu, which is placed in 6th house showing dispute in this land. It is

important to note that whenever there is a connection between fourth and sixth house dispute arises.

3- Either the lord or sub lord of 4th cusp is not having any connection with 11th house i.e. this property will not fetch any gain to the **buyer**.

4- To whom **we deal** is shown by 7th house. The placement of Saturn in 7th house clearly indicates the doubtful integrity of the seller. On the **basis** of above analysis we advised the querent not to purchase this land.

Horary No - 165

D O J = 27-2-03, T O J = 7pm, P O J = Agra

Rule: - In order to judge such type of queries following rules should be kept in mind.

(i) If the sub lord of 5th cusp or lord of 7th cusp is having relation with 7th and 11th houses then love affair is materialize otherwise not.

(ii) If the lord of 7th house is placed in 5th house then there are many love affairs.

(iii) If the lord of 7th house is placed in 11th house in its own sign friendly sign or exaltation sign, than success is ensure in love matter.

(iv) If the sub lord of 7th cusp is mercury and placed in dual sign denotes many love affairs.

(v) If the sub lord of 7th cusp or lord of 7th house is placed in 2nd house many love affairs.

Analysis of the query -: (i) The sub lord of Vth cusp is **Jupiter**, which is placed in 8th house in the star of Saturn which is placed in 7th house. In that question the connection of 5th and 7th is formed to show a kind of infatuation or attraction but will not turn into any bond of permanent ties because 11th house is not in the picture.

(ii) The sub lord and lord of 5th cusp Jupiter is retrograde i.e. love affairs will not materialize and Jupiter having connection with Saturn will cause ultimate separation.

Exam- 20 :- A lady from Lucknow asked the question over telephone whether her son would be able to get admission in medical college?

Horary No - 57

DOJ= 6-9-03, TOJ= 3.30 pm, POJ= Agra

The question is about the only son of this gentlewoman. So 5th house will be taken as the ascendant of the son.

Analysis -: The lord and sub **lord** of 5th cusp is Venus, which is placed in 3rd house. Venus is posited in his own star and in the sub or mercury, Which is retrograde. Mercury too is placed in 3rd house. 3rd lord the sun is also placed in 3rd house.

2- Third **house** happens to be 11th to 5th house. In this way 11th house is well fortified due to placement of three benefices. This ensures admission of son in medical college but he **would** have to wait because mercury is retrograde but **placed** in 11th house. As soon as mercury attains direct motion the son will get the admission.

3- As **far** as desire of mother is concerned desire is fulfilled because ascendant is aspected by benefic planet like moon. Secondly the sub lord of 1st cusp Saturn is posited in the star of Rahu, which is placed in the 11th house showing fulfillment of desire.

Exam - 21 :- A man wanted to know the sex of to be born child as his wife was in a family way

Horary No - 124

D O J = 5-4-00, T O J = 8.30 pm, P O J = Agra

Analysis :- The to be born child will be female because of following reason.

(i) Horary ascendant itself falls in female sign.

(ii) The sub lord of 5th cusp (1st child) mercury is placed in 5th house. Therefore ascendant and 5th cusps both are influenced by female planet.

Comments -: The wife of the querent gave birth to a female child on 14-5-00

Certain rules related with the queries of to be born child and others

(i) In Horary query the first child is denoted by fifth house. The second child is denoted by 7th house. The third child is denoted by 9th house, the fourth child is denoted by 11th house and so on. For ex. A couple has three children. The eldest child will be shown by 5th house, the second number child is shown by 7th house **and** the youngest child is shown by 9th house. The same rule will be applicable to the horoscope of either husband or wife.

2- In order to make verdict over the to be born child the fifth house of the querent mother or father will denote first child. As it is clear from the above query. For the sex determination of the to be born second child 7th cusp will be considered.

(iii) **A** deep study of signs, Planets and stars is must while making such type of predictions.

(iv) Whatever the nature of query may be the influence over ascendant must be properly considered.

Horary No - 5

D O J = 14-1-03, TO J = 4:50 pm, PO J= Shivpuri (M.P.)

Analysis -: 1- For litigation always takes 6th cusp. If there is **litigation** between husband and wife or Son and father, Litigation involving property, service matter etc are always

judged from the 6th **house**. This question is about the property litigation.

2- A dispute may arise if the lord of 11th house or sub lord of **11th** cusp is placed in 6th house.

3- Sub lord of 4th cusp Ketu is placed in 8th house along with Venus. The **lord** of 11th house mercury though retrograde is placed in the star of Venus. Ketu is having connection with 8th house shows delay and impediments. But both the parties will reach to an agreement out of the court due to Venus. Venus the sub lord of 11th cusp is associated with 11th cusp sub lord Ketu in 8th house. So matter will be settled amicably.

Comments -: It is to be noted in this particular question that querent himself was in a state of confusion and **there** is likely to be **many** questions in his mind. It is evident from the fact that at the time of query moon and **Rahu** were together. This shows ingenuity or insincerity of the question.

Exam. 23 - A businessman wanted to take loan from bank it if is possible?

Horary No. 146

DOJ = 6-6-2000, TOJ = 8:34 PM, POJ = Agra

Ruling Planets

Ascendant Lord

Mars

Ascendant star Lord

Jupiter

Moon sign Lord	Moon
Moon star Lord	Mercury
Day Lord	Mars

Rule - One will borrow either from a friend or from an institution if the sub lord of 6th cusp is posited in the constellation the lord of which is not retrograde.

Analysis - 1. The desire of the querent will be fulfilled because ascendant is aspected by Jupiter and Venus along with Saturn and Mars. The aspect of Mars over ascendant will not have **deliterious** effect because Mars itself is ascendant lord. However the aspect of Saturn over ascendant will delay the matter.

2. The Sub lord of 1st cusp Moon is placed in the star of Mercury is the lord of 11th house but placed in 8th house again **showing** hinderence and impediment in getting desire fulfilled. But fulfilment of desire is promised because ascendant is having connection with 11th house through Mercury.

3. The sublord of 6th cusp is Rahu which is posited in the star of Jupiter and in the sub of Mars. Both Mars and Jupiter aspect ascendant i.e. definately he will get the loan from bank.

Comments - It is thumb rule of horary astrology and expecially astrology based on K.P, if the sub lord of 1st cusp becomes ruling planet then the desire of the querent how odds, it may be, is fulfilled.

2. In the query it is important to know that native will not get the loan what he expects because Saturn is associated with Jupiter. It has been found by us if Saturn is assoicated with Jupiter the querent does not get what he **expects** but less.

Exam. 24 :A very influential man of Agra needs some money. He wanted to borrow it from one of his relatives. Whether he will get or not?

Horary No. - 3

DOJ = 2-8-2000, TOH = 9:13 PM, POJ = Agra

Analysis : The sub lord of 6th cusp Saturn is posited in the **constellation on the Sun** and in the sub of Mercury. Saturn

is placed in **11th** house while **Sun** and Mercury are placed in 4th house. Saturn is also associated with Jupiter in 2nd house shows the borrowing amount will be **less**, what he expects to borrow. At the time of query Shani (Saturn) pratyantar dasa in Venus **maha** dasa was operating from 13-6-03. The pratyantar of Saturn will operate up to **13-10-00**. During this time the transaction will take place because Saturn is in direct motion, sub lord of 6th cusp and posited in the star of the Sun which is one of the ruling planets.

Ruling Planets

Ascendant lord	Mars
Ascendant star lord	Ketu
Moon sign lord	Sun
Moon star lord	Venus
Day lord	Mercury

Comments : Since sub lord of **6th** cusp is related with 2nd house and with the Sun (Saturn being in the constellation of **the** Sun) either eldest brother (2nd house is 11th to 4th house) or any financial institution (Due to **Sun**) will give loan to **this** man.

2. We came to know that he borrowed from a bank.

Exam. 25 : A clerk working in an institution gave a huge amount of money to a party. Now the party refused to pay back his money. Now the querent wanted to know whether his entangled money would be recovered or **not**?

Either to borrow or to take overdraft **facilities** or recovery of money are all judged from the 6th house and there are certain rules in this regard.

Rules : 1. The **querent** will not get back his entangled money if the sub lord of sixth cusp is retrograde. The rule is also applicable to borrowing or **overdraft facilities**.

(ii) The querent will get back his money if the sub lord of **6th** cusp is in direct motion. He may **also** get loan or overdraft facilities.

(iii) If the sub lord of 6th cusp is Saturn than after much mental torture one **gets f** acilities and only meager sum what he expects.

(iv) Mercury being the sub lord of 6th cusp facilitates the help of mediators. The recovery is fast.

(v) Jupiter **indicates** mediation of court.

(vi) Government or court will help the querent if sub lord of 6th house happens to be the Sun.

(vii) Both the parties will settle the matter amicably if either Moon or Venus happens to be the sublord of sixth cusp.

The nature of the result will **depend** on the lord of constellation in which Rahu and Ketu are posited. If they happen to be sub lord of 6th cusp.

(ix) In the query related with either borrowing or recovery of money the querent will get only 50% of what he expects if Jupiter is aspected by Saturn.

(x) The same result (ix) will be experienced if Jupiter is associated either with **Saturn** or Rahu.

(xi) The use of force or threats if Mars happens to be the sub lord of 6th cusp.

Analysis of the query: What will be the result of query?

1. The sub lord of 1st cusp Jupiter is placed in **11th** house showing money will be recovered. But, Jupiter being in retrogression will **dealy** the matter.

2. The sub **lord** of 1st cusp Jupiter is also one of the ruling planets.

3. The sub lord 1st of **V1th** cusp Venus is not retrograde. SO above analysis shows that the querent will get back his entangled money. But he will **get** part of it not full because Jupiter is conjoined with Saturn and Rahu (Rule x)

Ruling	Planets
Ascendant lord	Moon
Ascendant star lord	Saturn
Moon sign lord	Jupiter (R)
Moon Star lord	Mercury
Day lord	Saturn

The sub lord of 6th cusp is Venus which is posited in the star of Rahu and in the sub of Saturn. Both Rahu and Saturn are placed in 11th house. This clearly shows that querent will have to satisfy himself with a part of entangled money. He will not be able to get back his full amount.

Exam. 26: A man in anxious state of mind wanted to know about the will being of his wife.

Horary No. 103

DOJ = 15-2-03, TOJ = 7:18 PM, POJ = Shivpuri (M.P.)

The man who asked this query was recently transferred from Bastar (a district) to shivpuri. Due to failure of

telephone lines of Bastar district. He was not able to make any contact with her wife. So he was very much anxious to know about her wife. Moon reveals the nature of query. **Moon** is in star of Saturn which is lord of 7th house. **Therefore** the question is related with wife and confirmed. Saturn is planet of morbidity and gloom i.e. native is having unnecessary fear about the well being of **his** wife.

Analysis : The sublord of seventh cusp is Venus. Venus is posited in its own star denotes that at the time of query wife is **staying** in the house. She is perfectly all right due to aspect of Jupiter and Saturn over seventh house.

2. The lord of seventh house Saturn is retrograde and aspects seventh house denotes that **wife** is feeling depression like condition. I told him that she was perfectly alright and had **been** missing you therefore she had been feeling depression like condition.

3. Next day the querent left for Bastar and telephoned me on 16-2-03 at 8 **pm** that my analysis was absolutely correct.

Comments : Question related with wife, husband, marriage, second marriage, integrity of partners, integrity of the person with whom we deal, Polygamy, polyandry etc. are judged from 7th house along with 2nd and 11th houses.

Horary No. 49

DOJ = 14-2-99, TOJ = 2:40 PM, POJ = Agra

For more than one marriages following rules will help.

Rule 1 - The sub lord of 1st cusp either be Mercury or Jupiter.

2. The sub lord of 7th cusp be either Mercury or Jupiter or any other planet **but must** have occupied dual sign in horary chart.

3. The sub lord of 7th cusp must have connection with 2nd as well as the 7th house.

Analysis : On the basis of above rules it can be predicted that she will not get remarried because the sub lord of 7th cusp is neither Mercury nor Jupiter. Secondly that sub lord of 7th cusp i.e. Saturn is not in dual sign.

Comments : Rules of Judge Polygamy, Polyandry and illegal marital **affairs**.

1. There will be discord in married life if the sub lord of 7th cusp is Mercury and placed in 6th house.

2. If the sub lord of 7th cusp is Mercury and is also placed in dual sign indicates more than one marriage or many pre or post marital **affairs**.

3. Same rule can be applied to Jupiter also.

4. The question related with marriage will be negative if the sub lord of 7th cusp is posited in the star of a retrograde planet. There will be delay and hurdles in marriage if sub lord of 7th cusp is itself retrograde.

5. The querent will have more than one affairs if a sub lord of 7th cusp is having connection with 2nd house. There is possibility of illegal affairs if Saturn or Mars being the sub lord of 7th cusp is **placed** in 11th house.

6. There will be inordinate delay in marriage if at the time

of judgement of query **moon** is having any **type** of connection with Saturn.

7. The activities of the native would be doubtful if 7th lord or sub lord of 7th cusp is conjoined with Rahu and placed in **8th** house.

8. There is possibility of love marriage if the sub lord of 5th cusp is posited in the constellation the lord of which is having connection with 7th as well as 8th **houses**.

9. The sub lord of 7th cusp and the star lord in which sub lord is posited indicates about height, colour, nature, behaviour, merits etc. of the future husband and wife.

10. There will be **harmony** or discord between husband and wife is to be decided by the sub lord of 1st cusp and 7th cusp. If both the sub lords are friendly to each other there will be harmony between the couples. If both the sub lords are enemy to each other there will be discord between them.

11. If **the** lord of 7th house or sub lord of 7th cusp is posited in 11th house native gains through wife.

Above cited rules have been found to be absolutely correct by us after the long research. It is our humble request to esteemed readers that they must not reach the conclusion in haste while dealing with **the** question related with marriage, character, **etc.** Any wrong verdict may spoil someones life.

Exam. 30 : When my wife will be appointed?

Horary No. 145

DOJ = 12-10-01, TOJ = 7:35 am, POJ - Agra

In job related questions houses 2, 6, and 10 are judged. Since the question is related with the wife of the querent i.e. 2nd, 6th and 10th are to be reckoned with 7th house and 4th house is 10 to 7th house. Thus houses 8th, 12th and 4th will be judged for this question.

Analysis :**Ruling Planets**

Ascendant lord	Venus
Ascendant star lord	Jupiter
Moon sign lord	Moon
Moon star lord	Mercury (r)
• Day lord	Venus

What will be the result of query? The desire of the querent will be fulfilled due to following reasons.

1. The sub lord of 1st cusp i.e. Moon is placed in the star of Mercury. Mercury is placed in 11th house. Mercury is retrograde. As has been said in previous chapters that if star lord or sub lord of 1st cusp though retrograde is placed in 11th house the desire is fulfilled after some delay and obstacles (delay is due to retrogression).

2. The sub lord of 1st cusp Moon is one of the ruling planets.

3. Mercury is also ruling planet.

Therefore on the basis of analysis the desire of the querent will be fulfilled. Now the question is when she will be appointed. Now **fortiming** of event significators of 8th, 12th and 4th cusps are taken into consideration.

Eighth cusp : Rahu, Jupiter, Venus, Mars are the significators of 8th cusp.

Twelfth cusp : Venus, Mars are significators of 12th cusp.

Fourth cusp : Saturn is the lone significator of the IVth cusp.

Thus the common significators are Rahu, Jupiter, Venus, Mars, Saturn.

At the time of judgement of the query Mercury mahadasa and Venus antardasa was operating. Mercury is placed in the star of Mars which is strong **signficator** of 2nd and 6th house. The appointment letter will be given to her when Mercury will attain direct motion. Mercury got direct motion on 23-10-01 and the wife of querent **was** appointed on 12-11-2001.

In order to undertake foreign journey following rules are important.

Rule - 1. If the lord of ascendant is either placed in ascendant or in 9th house then one definitely goes to foreign country.

2. If the lord of 9th house is placed in ascendant in horary chart.

3. If the sub lord of 11th cusp is in direct motion and having connection with 9th and 11th houses.

Analysis : 1. For foreign journey 9th, 12th and 11th houses are studied.

2. In the above horary chart rule (1) and (2) are absent, However rule (3) is partially present.

3. The sub lord of 11th cusp is Mercury which is placed in the star of Saturn and Saturn is debilitated. Therefore there is no possibility of going to foreign country in near future.

Foreign visit when? At the time of query Jupiter mahadasa and Saturn antardasa was operations upto 9-5-01. Jupiter is related with 7th, 3rd cusp and aspect 12th cusp. Therefore Jupiter mahadasa will take him to abroad. But Saturn will not help because Saturn is debilitated as well as is not ruling planet. Mercury and Ketu antardasa will also not be helpful because both are not the **ruling** planets. The Venus antardasa in Jupiter mahadasa which will start from 20-7-04 will take him to abroad because Venus one of the strong ruling planets is placed in the star of Mercury the ruler of 9th as well as 12th house.

DOJ = 22-2-02, TOJ = 9:05 am, POJ = Agra

Houses 3, 10 and 12 are judged for transfer. Here 10th house is important because 10th house shows place of work. If significators of 3, 10 and 12 are operating one gets transferred. If significators of 3, 9 and 12 are operating one

proceeds on leave. Therefore house 9 and 10 have different influence. 10th cusp shows transfer due to employment while 9 shows shifting of place either due to enjoyment or due to leave.

Horary No. 12

DOJ = 31-1-03, TOJ = 9:55 am, POJ = Shivpuri

For promotion houses 2, 6, 10, 11 are considered. 6 and 10 houses both are related with job and employed. 6th house denotes subordinate position while 10th house shows

commanding position. With each promotion there is an increase in salary (2nd house) as well as authority (10th house).

Analysis	Ruling Planets

Ascendant star lord	Venus
Moon sign lord	Saturn (R)

Significators :

2nd house : Saturn, Mars, Ketu

6th house : Mercury, Jupiter

10th house : Sun, **Moon**

11th house : Saturn, Mars, Ketu

Thus **the** common **significators** of houses 2,6,10,11 are Saturn, Ketu, Mars, Mercury, Jupiter, Sun, Moon.

with ascendant, sixth, tenth and 11th **houses**. The relation of Mars and Jupiter must be seen in order to gain power and authority in any field of life. Whether it is political post or service matter.

What will be the result of desire

1. The ascendant lord Venus is placed in eleventh house showing fulfilment of desire.
2. The sub lord of first cusp is placed in tenth along with Venus showing power and authority to the querent.
3. Ascendant is having connection with eleventh as **well** as with tenth.
4. The placement of Ketu in ascendant is a negative sign showing delay and hurdles in the fulfilment of desire.
5. From above analysis it is clear that desire of the querent is fulfilled but with some delay and obstacles.

When his desire will be fulfilled ?

Analysis	Ruling Planets
Ascendant lord	Venus
Ascendant star lord	Mars (R)
Moon sign lord	Moon
Moon star lord	Mercury
Day lord	Mars
Others	Rahu, Ketu

Significators :

2nd **house** : Mars

6th house : Jupiter, Ketu

10th house : Moon, Sun, Jupiter, Mercury, Rahu, Ketu

11th **house** : Venus, Mercury, Sun, Moon, Mercury, Rahu.

Thus the common significators of houses 2, **6**, 10 and 11 **are** : Mars, Jupiter, Ketu, Moon, Sun, Mercury, Rahu, Venus.

Mahadasa : 1. Mercury mahadasa - Mercury antardasa runs upto 3.02.04.

Mercury is the singificator of **10th and 11th** cusp. Ketu is the significator of sixth, tenth and eleventh (star lord of eleventh cusp) and also posited in the sign of Mars and in the star of Jupiter. Thus the connection of Mars and Jupiter is established. In this way Ketu antardasa will promote querent to the post of manager between 3-02-05.

Comments : The querent promoted to **the** post on 16-07-04.

Analysis—

Ascendant lord

Ruling Planets

Venus

Ascendant star lord Mars (R)

Moon sign lord Sun

Moon star lord Ketu

Day lord Mercury

Significators

2nd **house** : Mars

6th house : Jupiter, Ketu

10th **house** : Moon

11th house : Jupiter, Mars, Sun, Venus, Ketu, Mercury, Rahu

Thus the common significators are - Mars, Jupiter, Ketu, Moon, Mercury, Sun, Venus, Rahu.

Mahadasa : Ketu mahadasa - Venus antardasa runs upto 24-12-03. Ketu is the significator of sixth and eleventh cusp while Venus being significator of first cusp is also the significator of eleventh cusp. Therefore **this** Dasa may bring promotion to him.

Comments : There may be a doubt in the mind of readers that why Venus antardasa and why not the Sun antardasa will bring promotion to him. The reason is that the sub lord of the Sun is Saturn which is slow and delaying planet, while the Venus is not only ascendant lord but also in the sub of Mercury a fast moving planet in the eleventh house. The promotion does not involve enhanced power and authority because branch manager and senior manager both posts almost have same power and authority **therefore** Mars and Jupiter are not associated with promotion giving planets.

Analysis 1- The sub lord of eleventh cusp Jupiter is retrograde and placed in ascendant. Jupiter is posited in its own star i.e. star lord is also retrograde showing failure of the desire.

2- Tenth house is occupied by Saturn. Saturn shows sub ordination **therefore**, she will have to work in sub ordinate position.

3- In order to desire power and authorities mars and Jupiter must have connection with tenth house. Mars is posited in the star of Rahu and in the sub of Jupiter. Jupiter is retrograde therefore she is not likely to become D.M. at least 30 June 06 till Jupiter is retrograde.

4- The sub lord **and** lord of tenth cusp is mercury. **Mercury** also shows assistant position not commanding position. There fore up to 30-06-06 she will work as deputy or additional officer under some one.

Exam - 41 :- An old woman lost her golden chain and wanted to know if it would be recovered or not?

Horary No -27

D O J = 13-07-2000, T O J = 8:50 am, P O J = Agra

This gentle woman her self was **not** clear if she forgot to keep the chain at some place or some one had stolen chain. The confusing state of mind is due to following factors.

1- The significator of mind moon is **debilitated** hence showing uncertainty of thoughts. Mercury the planet of wisdom is also afflicted due to association with Mars shows blunt and agitating state of mind.

2- The sub lord of seventh cusp is mercury, which is posited in the star of Rahu in association of mars in second house. Placement of mercury in the star of Rahu shows a case of lost memory. Mercury is posited in second house denotes the chain is in house.

3- The lord of seventh house mars is placed in second house and seventh house is occupied by moon. Mars denotes young man and moon denotes young and **beautiful** lady. Both have kept the chain somewhere in order to play mischief with old lady with the object of harassment.

Will the chain be recovered -; It is shown by ascendant as well as eleventh cusp.

1- The lord and star lord both are placed in third house showing she has to make efforts to get back her chain.

2- The sub lord of eleventh cusp Saturn is placed in twelfth house, which is second to eleventh. The second house automatically involves if the question pertaining to recovery of money or recovery of lost article is concerned.

3- However Saturn due to its nature will delay, torment and torture and when hope is given up the same Saturn fulfill the desire.

Venus antardasa and sun pratyantara was operating. Since dasanath, bhuktinath and pratyantara lord are ruling planets therefore the lost chain will be found.

The lady informed after seven or eighth days that she got her lost chain.

Comments -: The house eleventh is considered for the recovery of lost articles or lost money or stolen articles. The description of thief or the persons involved in mischievous activities is made from seventh house.

In such type of cases houses seventh and **eleventh** are consider of with a serious consideration of ascendant.

Sub lord of 7th cusp is Jupiter, which is placed in the star of Rahu. Rahu denotes peons of the office. Therefore file is stolen by the peon. Rahu is associated with Saturn and Mars in 12th house so **other** peons of the office are also involved in this activity. File cannot be recovered because the sub lord of 11th cusp is Jupiter having connection with Rahu in 12th house and 12th is the negation of the ascendant.

Exam - : 43 - One political leader wanted to be the chairman of a public sector unit. He asked when he would be nominated chairman of this institution?

Horary No - 148

D O J = 27-03-03, T O J - 6:13pm, P O J = Shivpuri (M.P.)

There are certain facts related with this query, which we would like to bring to the knowledge of the readers. This institution

had already a chairman. The querent wanted to be the chairman of this institution after disposing present chairman.

Analysis of the query	Ruling Planets
-----------------------	----------------

Ascendant lord -	Mars
------------------	------

Ascendant star lord -	Jupiter (R)
-----------------------	-------------

Moon sign lord -	Saturn
------------------	--------

Moon star lord -	Moon
------------------	------

Day lord -	Jupiter (R)
------------	-------------

What will be the result of query -?

1- The ascendant is occupied by Ketu and aspected by Saturn. Thus ascendant is badly damaged. Retrograde Jupiter aspects ascendant hence it will keep alive hope.

2- For political post or to get any big post there should be a relation between eleventh and fifth cusp through a benefic planet.

3- The sub lord of fifth and eleventh cusp is Venus. Venus is in the star of Mars and in the sub of the Sun. Mars aspects sixth house i.e. house of opponents. Mars will sub due opponents. The sun is in fifth house having aspect over eleventh cusp. Venus itself is placed in third house indicates that effort would be required to get the post.

4- As has been said earlier that in order to drive power and authority Mars and Jupiter must have connection.

5- As ascendant is badly damaged and mars and Jupiter are not related with either tenth cusp or eleventh cusp therefore there is a doubt in fulfillment of desire.

Timing of event -: At the time of judgement of the query Jupiter was retrograde. Nothing will happen till Jupiter is retrograde. Jupiter will be in direct motion after 31-07-03. Therefore change will take place after this date.

Comments -: Due to weak ascendant the querent could not reach to the post of chairman but was nominated as director of this institution in the first week of Aug. 2003.

Mars

Asd star lord -	Saturn
Moon sign lord -	Mercury (R)
Moon star lord -	Rahu
Day lord-	Mars

What will **b e the** result of query ?

1- It has been written earlier that the result of query will be negative if the sub lord or lord of eleventh cusp is retrograde. **The lord and sub** lord of eleventh **cusp** is mercury, which is **retrograde**. --

2- The ascendant is **aspected** by malefic Saturn. Saturn aspects Jupiter therefore Jupiter too **has** become weak. Therefore he will not continue **for** a longer time.

When he will be removed from the post -: I told him that he would continue for **some** time because divine Jupiter would protect him. However he **would** be removed either Aug. 03 or first weak of **sep.03**. Because at the time mercury the lord and sub lord of eleventh cusp will be retrograde. The querent was removed from the post on 31 Aug. 03.

Exam - 45 :- Will I get popularity through astrology? This query is posed by an astrologer friend.

Horary No - 232

DOJ = 13-2-02, TOJ = 3:21 pm, POJ = Bhopal (M.P.)

A fellow astrologer friend who was posted with me in Bhopal and used to do astrology asked the question. For astrological proficiency Mercury, Jupiter and Sun must be

well placed in horoscope. Apart that 4,5, and 8 houses must be occupied by benefic planets. In this horary chart mercury is placed in 11th house while Jupiter is placed in 4th house. Fifth cusp is influenced by Saturn and mercury therefore the querent will take interest in divine knowledge. As far as popularity is concerned the sub lord of 5th cusp Jupiter is placed in 4th house, which shows negation to 5th house. The sub lord of 11th cusp mars is placed in ascendant, which again shows negation. The ascendant and 4th house denotes that this knowledge will be used to material gains rather than pursuing spiritual achievements. However the connection of 11th house with 5th through mercury will provide astrological knowledge.

Comments -: In order to gain mass popularity the house 5th, 11th and ascendant must be considered. These three houses either be aspected by benefic planet or be occupied by benefic planets. Simultaneously the significator of popularity i.e. the sun must be placed either in 10th or 11th or 5th house. In that horary chart Sun is placed in 12th house. So will not bring any distinction in this field.

Will I be punished in departmental enquiry?

Exam - 46 -: An officer who was facing a departmental inquiry wanted to know if he was likely to be punished in departmental enquiry?

Horary No - 21

D O J = 20-2-00, T O J = 6:10pm, P O J = Agra

In order to be punished or imprisonment house 12th is mainly judged. If there is a case of imprisonment than the

connection of 12th house with that of 4th house is studied because 4th house is permanent residence and 12th house shows isolation. In case of service matter 10th house must have connection with 12th house.

Analysis -: The desire of querent is that he must not be terminated from the service. His desire will be fulfilled or not is judged as follows. -

1- The sub lord of 1st cusp mars is one of the ruling planets. When sub lord of the 1st cusp becomes one of the ruling planets then desire of the querent is fulfilled. Therefore it is sure that he will not be given severe punishment.

2- The sub lord and lord of 1st cusp mars is placed in 11th house, which again shows the fulfillment of desire of the querent.

Whether he will be punished or not?

He will be given minor punishment **due to** following reasons: -

1- The sub lord of 10th cusp Rahu is posited in the star of Saturn, which is placed in 12th house. 10th house is having **connection** with 12th house through malefic planet.

2- He will not lose his job because the sub lord of 6th cusp (service) is placed in 11th house. Mercury will save his service.

Comments -: The officer was given punishment of withholding of two increments for one year which was further minimized to the punishment of warning only.

Exam - 47 -: A gentle man wanted to sell his house to pay off his market liabilities.

Horary No - 241

D O J = 09-02-03, T O J = 8:28pm, P O J = Agra

If the sub lord of fourth cusp is placed in the constellation of a planet the lord of which is either significator of 3rd & 11th houses or 12th house.

The fourth house denotes possession, which includes land, building but other articles also on which one has ownership right. Third house is twelfth to fourth house which always shows separation from possessions Eleventh house always shows gains. Twelfth house is natural signifier of disposal of possessions as well as payment of market liabilities.

Analysis :- 1- Retrograde Jupiter aspects ascendant therefore the desire of the querent shall be fulfilled but with some delay because ascendant lord Jupiter is retrograde.

2- The sub lord of 1st cusp mercury is one of the ruling planet therefore the fulfillment of desire is very sure.

3- The sub lord of third and fourth cusps mercury is posited in the star of the sun that is placed in eleventh house **showing** profit through the disposal of property.

4- The sub lord of 12th cusp is Rahu which is placed in 2nd house, 3rd cusp falls in the star of moon therefore payment of market liabilities will be quick (moon is fast moving planet)

5- Since mercury is the major planet **denoting** selling of house therefore payment will be received in installments (mercury gives in installments)

6- Rahu is the sub lord of 12th cusp shows payment of market debts but even then it will create problems to the querent.

7- Since mercury is having connection with 7th house due to its lordship **therefore** the property **will** be sold off through the mediation of property dealer.

Exam - 48 - : A businessman wanted to pay off the liabilities of markets. He put the query if he would be able to repay the debts of market.

Horary No - 151

D O J = 10-7-00, T O J = 9:11am, P O J = Agra

If the sub lord of 12th cusp is posited in the constellation the lord of which is not retrograde then one is able to pay off debts.

Analysis -: 1- Ascendant is aspected by the Jupiter which shows fulfillment of desire but the sub lord of 12th cusp mercury is retrograde and placed in the star of Rahu.

2- In horary **astrology** Rahu is not considered as a retrograde planet because retrograde motion is its natural motion so in the above analysis. It will not be assumed as retrograde mercury is posited in the star of retrograde Rahu.

3- Rahu is very slow moving planet it denotes two important facts -

a- Rahu **shows** increased burden of interest, which accrues, in principal amount.

b- It creates unnecessary problems in the repayment of debts. Therefore it may be assumed that there will be inordinate delay in the repayment of market debts.

Comments -: What is the relation of sub lord of 12th cusp with repayment of loan is described below -:

Sub lord of 12th cusp	Payment position
1- Mercury	In installments
2- Saturn	A part of loan is paid, never full loan.
3- Jupiter	Through legal action payment is made
4- Mars	When borrower receives Threats of hoodlums
5- Moon	Quickly
6- Venus	In amicable atmosphere.
7- Sun	Either father or through Mediation of government

Exam - 49 -: An officer of an institution put the query whether vacancies in the institution will be filled up in near future or not?

Horary No - 21

DOJ = 16-9-03, TOJ = 12:35pm, POJ = Agra

The query is related with the institution where many post

of various cadres were lying vacant. The daughter of the querent applied for a post in this institution.

Due to certain political as well as official reasons the whole appointment process came under dispute.

Due to these reasons, the querent wanted to know if appointment would take place or not?

This is a general type of question therefore no particular house is related with such type of query.

The example has been taken to make the readers understand and also to make them familiar with such type of query in which a particular house is not studied or considered.

Such types of question are only related with ascendant because these questions are related with desire of the querent. In such type of questions an astrologer has to read the chart to see whether the desire of the querent will be fulfilled or not?

Analysis-:

1- The sub lord and lord of the ascendant is retrograde showing **failure** of the query.

2- The sub lord of **11st** cusp mercury is retrograde again showing the negation of the desire.

3- Ascendant is flanked by Rahu and Saturn **again** show failure of the desire.

4- Therefore the appointment will not take place in this **institution**.

Comments -:

The government later on itself banned the appointments. Since then no single appointment have taken place in this institution.

What will be the future of the institution?
